MEDICAL.

Are endorsed and prescribed by more leading Physicians than any other Tonic or Stimulant now in use. They are

A SURE PREVENTIVE

For Fever and Ague, Intermittents, Biliousness and all disorders arising from malarious causes. They are highly recommended as an **Anti-Dyspeptic,** and in cases of **Indigestion are invaluable.** As an **Appetizer** and **Recuperant,** and in cases of **General Debility** they have never in a single instance failed in producing the most happy results. They are particularly

BENEFICIAL TO FEMALES,

Strengthening the body, invigorating the mind, and giving tone and elasticity to the whole system. The **Home Bitters** are compounded with the greatest care, and no tonic stimulant has ever before been offered to the public so **PLEASANT TO THE TASTE** and at the same time combining so many remedial agents endorsed by the medical fraternity as the best known to the Pharmacopœia. It costs but little to give them a fair trial, and

Every Family Should Have a Bottle.

No preparation in the world can produce so many unqualified endorsements by physicians of the very highest standing in their profession.

Endorsed also by the Clergy and the leading denominational papers

UNITED STATES MARINE HOSPITAL, St. Louis, Mo., Oct. 8, 1870.

JAMES A. JACKSON & Co— I have examined the formula for making the "Home Stomach Bitters," and used them in this hospital the last four months. I consider them the most valuable tonic and stimulant now in use. S. H. MELCHER, Resident Physician in charge U. S. Marine Hospital.

JAMES A. JACKSON & Co—Gentlemen: As you have communicated to the medical profession the recipe of the "Home Bitters" it cannot, therefore be considered as a patent medicine, no patent having been taken for it. We have examined the formula for making the "Home Bitters," and unhesitatingly say the combination is one of rare excellence, all the articles used in its composition are the best of the class to which they belong, being highly tonic Stimulant, Stomachic, Carminative, and slightly Laxative. The mode of preparing them is strictly in accordance with the rules of pharmacy. Having used them, seen the effects in our private practice, we take pleasure in recommending them to all persons desirous of taking Bitters as being the best Tonic and Stimulant now offered to the public.

Frank G. Porter, Prof Obstetrics and Diseases of Women, College of Physicians, and late member Board of Health.

A Safe and Profitable INVESTMENT.
First Mortgage Bonds
To a limited amount, upon a railroad which is well located for business, and which has been already largely constructed with the funds of its Stockholders, cannot be otherwise than safe. This security is increased by the Contracting Company is composed of men of high character, and of ample means for successfully carrying through any work that they undertake.

THE
New Orleans, Mobile and Texas
Railroad Company
Offer for sale a bond which combines these advantages to an unusual degree, The route lies between Mobile, Alabama, and Houston, Texas—passing through New Orleans, the New York of the South. Of the whole line of 475 miles, about two-thirds are already built, and the Stockholders have expended nearly TEN MILLION DOLLARS in the work. The bonds now offered are secured by a mortgage upon all that part of the line west of New Orleans, which has an enormous traffic assured to it from the start, this being the only rail connection by which the cotton, corn, cattle and other productions of Texas can reach New Orleans.

So important is this road considered to Louisiana, that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of second mortgage bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The First Mortgage

Eight Per Cent. Bonds

Now offered, are limited in amount to $12,500 per mile, and are for $1,000 or £200 each, interest payable January and July, at the rate of 8 per cent. Currency or 7 per cent. Gold, at the option of the holder. Bonds registered if desired.

Among the leading Stockholders of the Company are Hon. E D Morgan, Ex-Governor and Ex-U S Senator; Hon John A Griswold, Ex-Lieutenant-Governor, Troy, N Y; Hon Oakes Ames, M C., Massachusetts; Messrs Morton, Bliss & Co., 1 Von Hoffman & Co., J & W Seligman & Co., Harrison Durkee and others, of New York; Benjamin E Bates, President Bank of Commerce, Franklin Havens, President Merchant's Bank, Boston, and others, also well known.

The above statement of facts proves the Safety of these Bonds. Their Profit is equally manifest upon examination. They are sold for the present at **90,** and accrued interest from July 1st. At this price they afford a certain income for forty-five years, or nearly nine per cent. upon their cost. One thousand dollars invested in these eight per cent. bonds will give the purchaser more than seventy-seven per cent, greater annual interest than the same amount invested in the new Government Five Per Cents. while holders of Government Sixes will find a decided profit in selling them at present high prices, and re-investing in New Orleans, Mobile and Texas Bonds.

Subscriptions will be received in Portland, by

Messrs, SWAN & BARRETT, Bankers' 100 Middle St.
H. M. PAYSON, Broker, 32 Exchange st.
WM. E. WOOD, 67 Exchange St.

Information concerning the Company and the Road, and pamplets containing map and full details of the enterprise, can be obtained of the undersigned or any of the Company's advertised agents.

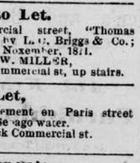
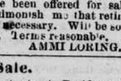
Farm for Sale.


The subscriber offers his farm for sale, situated in North Yarmouth, containing about three hundred acres of good land, with a large lot of wood and timber standing thereon, within one half mile of a Depot on the M. C. Railroad, and twenty rods of a saw and grist mill on Royals river. The farm produces about seventy tons of hay, is well supplied with water, good fences and in good condition every way, has a large orchard mostly grafted and will yield from three to four hundred bushels of apples; barns would be just the place for stock raising or a milk vender.
The buildings consist of two dwelling houses and five barns, with workshop and other buildings mostly in good repair and is convenient for two farms. The dwelling house is pleasantly situated on the new Gloucester and Portland road, and within one half mile of the G. T. Railroad, on the east, and one mile from the M. C. Railroad on the west, one hundred rods from a schoolhouse, two miles from Post Office, stores and three different churches; one mile from a good saw and grist mill, and sixteen miles from Portland.
This farm has never before been offered for sale, but old age and infirmity admonish me that retirement from care and labor is necessary. Will be sold in separate lots if desirable. Terms reasonable.
oct3d3w w4tdt AMMI LORING.

For Sale.


House No. 42 Pleasant street—Residence of the late N. J. Miller, Esq. House contains fifteen rooms bath room with all the modern appliances: Furnace, Range, Gas and fixtures throughout; Hot and cold water in second story, large supply of hard and soft water.
The lot contains about twelve thousand square feet, Garden well stocked with Pear, Plum and Cherry trees, &c., &c., all in excellent condition. Also good stable connected with house, all in good condition. Immediate possession given. Price low, terms easy.
House will be shown to parties wishing to purchase from 1 to 5 five o'clock p. m., any day up to Oct. 25 h, 1871, by applying at the house. For price and terms inquire of JOHN C. PROCTER,
oct3d3w 93 Exchange street.

Mill for Sale or Lease.
SITUATE in Wilton, near the Wilton Depot, one mill with never failing water power. The building is 64x40, three stories. Suitable for woolen or cotton manufacturing. The building, wheel and shafting is all new, can rely on about 60 horse power the entire year, no trouble from freshets. The property will be sold in yearly installments if desired. A saw and shingle and lath mill connected, will be offered with the above property if wished for.

65 miles nearly completed—40 more under contract. Funds on hand to build this 105 miles and equip it.
These bonds are issued no faster than $25,000 per mile on road completed and equipped.
SECURED
By Road, Franchises, Rolling Stock, Buildings, and all other property, including over
700,000 Acres of
Timber and Iron Lands.
The whole based upon a large cash subscription by many of the best and most well-known merchants of Boston and New York.

Officers of the Company
GARDNER COLBY,.....President.
HON. GEO. RIDDLE.....Vice President.
HON. SAMUEL H. WALLEY.....Treasurer.
(President Nat'l Revere Bank, Boston.)

Trustees.
Hon GEO T. BIGELOW, Actuary of the Mass. Hospital Life Insurance Co Boston.
JOHN A. STEWART, Esq, President United States Trust Co., New York.

These Bonds will be sold at **95** and accrued interest in currency.
United States Bonds taken in exchange at market rates free of commissions
$84.00 in U. S. 5-20s, yielding an income of **$504** per year in gold, will purchase to-day **$10,000** of Wis. Cent. R Bonds, yielding an income of **$700** per year in gold.
We strongly recommend these Bonds to all classes of investors.

MONDAY, OCTOBER 9, 1871.

Tweed Not Excommunicated,

The first impression as to the result of the Rochester Democratic Convention was that Tammany had been in good faith rejected and cast out of the Democrtic councils. It seemed likely that Democracy would gain considerable credit for its prompt rejection of the offending member. But the whole transaction was a fraud, like the "new departure." Not an element of good faith in it. The Tammany delegates waived their right to seats, but their opponents, the Reform Democrats, were rejected. The proffered aid of Tammany in the coming campaign was received with a degree of enthusiasm which showed but too clearly the good feeling still subsisting between the nominally belligerent factions. It was much like the pretended estrangement between the Kimball progressive and Marcellus Emery conservative Democratic factions in this State during the last campaign. Secretly they laugh in each others faces, when no third parties are by to look on and jeer at the imposture. Tammany money and Tammany power are necessary to the Democracy of New York this fall, and no attempt will be made to get on without them. Berett of Tammany the Democracy of the Empire State would be like that of Maine with the rumsellers and the "Old Guard" Bourbons excluded. The following extract from the New York *Tribune* shows how the Republicans of New York regard the pretended estrangement and the sham exclusion of Tweed and his cohorts:

We were morally certain that the Democratic party would not venture upon an election in our State without the powerful help of the money stolen from our tax-payers and the fraudulent votes and false counting which that money would buy; and yet Tweed's victory at Rochester yesterday is more complete than our worst anticipations foreboded. He was virturally recognized as the leader of our City Democrats; his Committee is still its accredited organ; his ticket is the regular Democracy ticket; and our plundered citizens and their ballot-boxes are delivered over by the Sham Democracy to the uncovenanted mercies of his satellite thieves and ruffians. There was never a more disgraceful back-down than that of the Seymours and Kernans and Tildens, quailing before the audacity of this embodiment of wholesale corruption and vulgar profligacy.

We saw, three days ago, that the habitual misleaders of the German Democrats of our City were preparing to knuckle to Tweed; we knew that the Democratic managers of this emporium were rotten to the core; yet we still put faith in the resolution and the power of Seymour and the rural chiefs. At last, we saw that they, too, would give way or be overborne—that Tweed would not be denounced and excommunicated in earnest; and yet we supposed that a sense of decency and of party necessity would impel the Convention to put him in Coventry in appearance, though not in reality.

We believed and trusted too far. Tweed went, and saw, and conquered. The Convention proved a plaything in his hands. Tilden's empty talk about Democratic purity was turned to ridicule by the action which immediately followed. If ever party was disgraced by gigantic peculation, then Tweed & Co. have shamed the Democratic party beyond all precedent. Yet his immense wealth, so foully won, his unmeasured power to make ballot-boxes lie, his lavish disbursements, and his matchless audacity, have enabled him to triumph over public indignation, and a formidable array of adversaries, and he returns from Rochester master of the situation. Whatever Democratic success shall be achieved this Fall will be *his* success; if a Democratic Legislature shall be chosen, it will be *his* Legislature; and no Democratic judge will dare to convict him of any of his crimes if he should be returned to the Senate to pass new charters and tax-levies as he passed those which have ravaged our city for the last four years. The Democratic State Convention has armed him with power to reward his friends and punish his enemies, and he will not hesitate to use it to the utmost.

THE notion that the Ku-Klux organization is a myth is pretty effectually disposed of by the wholesale conviction of the rascals in North Carolina. The Democrats of the State are thrown into a terrible panic by the unexpected turn the matter has taken. A special to the Boston *Advertiser* says that ten of the leading Democrats of the State, seven of them lawyers, addressed a letter to Judge Bond, expressing their surprise at the development of the testimony of the riots, condemning in the strongest language the existence and object of the organization and asking that the remainder of the trials be postponed until November, in order that they might unite all order-loving citizens in an effort totally to suppress the outlaws. Judge Bond replied courtecusly, expressing his regret that he could not comply with their request for a postponement. It would greatly encumber the docket of the next term, and he could not help thinking that the efforts of the court would be a great help to the gentlemen in their efforts to suppress these outrages.

THE great strike of English mechanics at Newcastle and other towns on the Tyne having resulted substantially in their triumph, it is to be feared that this unsatisfactory way of dealing with employers will be generally resorted to. The perfect organization of the British mechanics, and their accumulated savings, enabling them to support the strikers in idleness for many months, gave them the victory, and after the first of January they are to work only nine hours a day. Workingmen will not be slow to learn the value of concert of action when they see that it has prevailed in this case against a combination of some of the heaviest capitalists in Great Britain. Why is it impossible for men who have learned so well the first and the greatest element of success cannot initiate a movement for employing themselves and *discharging their employers?*

BARON LISGAR, Governor-General of Canada, has discovered that there is a precedent for the President's leaving the country if he wishes. He says that he met President Van Buren at Kingston, Canada, during his term of office. The moral of the Governor General's story is that the Canadians want the President to visit St. John when he comes here to attend the opening ceremonies of the European and North American Railroad.

THE name of Mr. Sumner J. Chadbourne of Dixmont is to be added to the list of candidates for Secretary of State. A quadrangle instead of a triangle is, therefore, to be the geometric symbol of the situation. Mr. Chadbourne has for several years been clerk of the House of Representatives.

Political Notes.

Every Democratic Senator voted for the confimation of Murphy the collector of customs in New York against whom charges of corruption are so freely made.

The Woman Suffrage Association has decided to call a convention to nominate candidates for State officers. It will question all candidates for State offices in regard to their views on woman suffrage, and publish their replies in the *Woman's Journal*.

Jere Black denouces Tammany.

The Washington *Chronicle* sagely declares that the "normal state of Democracy is to steal in New York and to commit murder in the South."

Ex-Governor Magoffin, of Kentucky, wants Mr. George W. Cass, of Pennsylvania, to be the Democratic candidate for President next year. If the Democrats hold a few more conventions like that at Rochester, it will make very little difference who gets their nomination for President, says the *Post*.

Speaker Blaine, General Garfield, Mr. John A. Bingham, Eugene Hale of Maine, Senator Wilson, Mr. H. K. Dawes, Col. John W. Forney, and Judge Kelley of Philadelphia have been invited to take the stump in New Jersey.

Items.

Mr. Justin McCarthy's new novel, "Lady Judith," has been received with great favor equally by the critics and by the press.

Somebody has brought a talking machine to this country and wants to dispose of it—just as if we hadn't enough "gab."

The growth of New York is illustrated by the statement that there are now ninety-two first class buildings in course of erection in the city. Many of these structures are of the most costly and imposing character.

Hon. J. M. Ashley, a well known ex-Congressman from Ohio, appears as a lecturer this season. He spoke in Tremont Temple Friday evening, his subject being "Recollections of Men and Measures during my Term in Congress."

A cry comes from California for more preachers; but as only small stipends are promised it does not sound very loudly in some clerical ears.

A Machine That Can Talk, Laugh and Sing.

A persevering Frenchman once constructed a machine, in the form of a duck, which could walk, clap its wings, pick up grains of corn, and more wonderful still, digest them, but a machine capable of talking was supposed to be beyond the power of human ingenuity to construct. Kempelen, a German, made a number of puppets, that uttered the words "papa" and "mamma," but after devoting his life to perfecting them, he asserted that a machine which could utter all the words in the European language was an impossibility. After his death his puppets became dumb, no one understanding the mechanism by which they were made to speak. Kempelen's impossibility has been at last overcome. In 1841, Prof. Faber exhibited a machine which could utter a great number of sounds and words, but it was by no means perfect. His nephew took up the machine that his uncle had failed in perfecting, and completed it. After exhibiting it before all the crowned heads and scientific societies of Europe, he has brought it to this country, and yesterday gave an exhibition of it in private. The machine, which stands on a small table, consists of a complicated arrangement of rubber tubes, reeds, keys, pedals, strings and wires. The lungs are represented by a small pair of bellows, the glottis by reeds and pipes of different sizes, the lips and tongue by pieces of india rubber. Beneath the table is a pedal by which the bellows are worked, and on the right hand side a series of keys, on which are marked the letters O. U. I. E. L. R. W. F. S. B. D. and G. With these and some supplementary arrangements, all sounds used in the European languages can be enunciated. There is also an arrangement resembling the keyboard of a piano, by which the machine can be made to sing. Every portion of it is open to view, so that no deception is possible. Yesterday the machine, under the deft hands of Mme Faber, enunciated distinctly all the letters of the English and German alphabets, numerous long and most difficult words, such as "Constantinople," "Politzka," "Mississippi," "Radetzky," "hurrah," and then darted off into long sentences in English, German and French, winding up with a laugh of the most natural kind, followed by hisses, groans and murmurs. Every word proposed was pronounced at once and without the slightest hesitation. Of course some words were more clearly enunciated than others, but the majority were given far more clearly than the majority of human beings pronounce them, and even the nasal twang which French people often adopt was closely imitated. In Prof. Faber's machine the motions of the mouth and tongue imitate precisely those of human beings. Different keys or tones can be given by proper manipulation of the pedals. Taken altogether, the "talking machine" is a wonderful specimen of man's ingenuity. Whether it can ever be anything more is doubtful. It cannot be applied to any practical purpose, unless, indeed, dumb or weak nerved and feeble voiced individuals should choose to purchase them and use them as mediums through which to address the public.

Prof. Faber, we believe, intends to exhibit his machine in public as soon as arrangements can be made for that purpose. The singing portion of the machine not being in order yesterday, we were unable to determine what merit the invention possesses as a vocalist.—*Exchange.*

The Trouble With Russian Minister.

The following is a detailed account of the serious difficulty between this government and the Russian minister:

In June last the President, through the Secretary of State, requested the recall of Mr. Catacazy, placing the request on the ground that his conduct, official and personal, had for sometime been such as materially to imoair his usefulness to his own government, and to render intercourse with him, for either business or social purposes, highly disagreeable, and the President also expressed the opinion that the interests of both countries would be promoted, and those relations of cordiality with the government of the Czar, of the importance of which the Czar was well aware, would be placed upon a much surer footing if the head of the Russian Legation here were to be changed.—Our Minister, Mr. Curtin, pursuant to instructions, communicated these views to Mr. Westman, the Vice-Chancellor of the Russian Empire, who, in reply to our Minister, expressed himself to the effect that this was, in his opinion, an improper time to recall Mr. Catacazy, in view of the visit of the Duke Alexis to the United States, as in such event there would be no Minister to attend the Duke as the properly accredited representative of the Russian government. It was a very serious matter, and he, for the reasons stated, declined to bring the matter to the notice of the Emperor. A successor, he added, could not be appointed in time to meet the Duke on his arrival in the United States. Our government, however, uninfluenced by the arguments of the Vice-Chancellor, in the further progress of the correspondence, continued to insist on Mr. Catecazy's recall. In the meantime, on the 16th of August, the Secretary of State had an interview with Mr. Catecazy, the only one since June, when the first note was sent to Mr. Curtin. At that meeting the Secretary informed him that his recall had been requested. It will be recollected that on the 5th of September a letter was published purporting to have been written at St. Petersburg, and dated the 12th of August, or four days before that interview, in which it was stated that Mr. Catecazy was thoroughly sustained by his government, and that during the interview a similar assertion was made by the Secretary himself. It would seem from what has already been stated, whoever may be suspected of being the author of that letter, that the assertion therein was incorrect. After various notes to the Vice-Chancellor, that officer finally brought the subject of recall to the notice of the Emperor, who requested, in the language reported, that Mr. Catecazy should be tolerated by the President until the visit of Grand Duke Alexis is over.—On the 19th or 20th of September, on receiving information of the request, the President, through the proper official channels, acceded to it, coupled with the expression of a desire to manifest friendship for the Grand Duke, as well as for his Imperial father, and Mr. Catecazy was informed by Secretary Fish that if, when the visit of the Grand Duke is concluded he shall not be recalled, his passports will be sent to him, and that the President will not receive him unless accompanied by the Grand Duke; and, further, that the President will at no time hold conversation with him.

New Publications.

A Chapter of Erie and Other Essays is made up of papers contributed by Charles Francis Adams, Jr., and Henry Adams to the *North American Review*. Readers of current literature are well acquainted not only with the masterly essay that gives its name to the volume but with several of the others, especially "An Erie Raid" and "The New York Gold Conspiracy" which alone of these papers first appeared in the *Westminster Review*. The contributions of Charles Francis Adams Jr. relate wholly to the railroad system of this country, while those of his brother treat of finance here and abroad. We cannot speak with too much enthusiasm of the value of the former's facts and suggestions in regard to that problem of pressing importance, the railroad question. It is a problem with which we must all sooner or later grapple. It may be said that these essays by Mr. Adams are almost the only attempt to convey to the masses in a popular form a comprehensive idea of the dangers that threaten from the increasing wealth and power of the great railroad corporations of the United States. We know of nothing that would arouse public attention to this great peril and result in the timely overthrow of monopolies that are now in an incohate state so certainly as the general perusal of this book. With this end in view we wish it could be placed in the hands of every intelligent voter, though we might as well wish every voter to read Adam Smith. But it is some consolation to know that the main points contained therein have reached the masses through newpaper extracts and abridgements, while those who make the subject of railroad aggression a specialty will refer to this volume as to a text book. (Published by James R. Osgood & Co., and for sale by Hall L. Davis.)

A new poem by Browning is an event in the lives of the select company who read that poet. *Balaustion's Adventure*, just published from advance sheets by James R. Osgood & Co., will perhaps excite a wider interest than most of the author's efforts because the only function of Balaustion is to serve as a pretext for a most satisfactory English version of the Alcestis of Euripides, one of the most thrilling of the antique dramas. Balaustion is a Grecian maiden who, during the war between Athens and Sparta, takes part with the former, though her native island, Rhodes, owes allegiance to the latter. In the course of a sea voyage her vessel is driven by a pirate into the hostile city of Syracuse, where the inhabitants cruelly command her and her companions to put back to sea and certain death. Learning, however, that she can recite Euripides, they receive her with true Greek enthusiasm and send her to Athens in safety and loaded with presents. When the ship sailed one handsome youth who had heard her recitation of Euripides was found on board, "having a hunger to see Athens," but on the arrival of the vessel at that city the reader is not surprised to find that Balaustion and not Athens is the main attraction. This episode disposed of, there comes the translation of which competent critics speak with great favor. (For sale by Hall L. Davis.)

The readers of the *Atlantic* will be glad that Higginson's contributions to that magazine from 1858 to 1871 have been published in book form under the title of *Atlantic Essays*. Higginson is a well-established popular favorite and his essays deserve preservation in permanent form. "A Plea for Culture," "Literature as an Art," "Americanism in Literature," "A Letter to a Young Contributor" and the other essays in this volume are among the best-remembered and most pleasant of the recent contributions to American literature. (Published by James R. Osgood & Co., and for sale by Hall L. Davis.)

THE recent insurgent successes in the Eastern department of Cuba do not confirm the news of the suppression of the revolt which the Spanish authorities have so industriously circulated of late. During the whole three years that the rebellion has been in progress, the same story of its suppression has been repeated about every week, only to be disproved by news of continued insurgent activity.

SUNDAY SCHOOL CONVENTION.—A general convention of all the Sabbath schools of this county, connected with evangelical churches, will be held at Little Falls, Windham, October 18th and 19th. The session will commence at 2 1-2 o'clock in the afternoon of the 18th, and after organizing, reports of the condition of the different Sunday schools, as to what has been done and the prospects for the future, will be presented.

In the evening the following topics will be discussed:

1.—What are some of the principal difficulties in the way of Sunday school progress and how obviated.

2—Duties of the church for the Sunday school.

After these discussions questions will be presented through the question drawer and answered in the evening.

Thursday afternoon the following topics will be discussed:

1—Sunday school libraries. Are they useful as at present conducted?
2—Teachers' meetings.
3—Duties of Superintendents.
4—Sunday school concerts.

In the afternoon discussions will be held on the following subjects:

1—Illustrative teaching.
2—Qualification and duties of Sunday school teachers.
3—Intention and aim of Sunday school work.

In the evening a Sunday school experience meeting will be held, and the question propounded through the drawer in the afternoon will be announced.

Arrangements have been made with the Portland & Ogdensburg railroad to carry delegates to and from the place of meeting for one fare.

THE New York Sun has set a story going which has been caught up and passed along by every Democratic sheet that President Grant and other public officers at Washington have large interests in the Seneca stone quarry, and that its produce is used extensively in public buildings to the exclusion of better and cheaper material. But General Meigs has published a statement showing that the President purchased his stock a year before he assumed his office, and that it has never yet produced him a cash dividend; further, that the Seneca stone is only partially used, and for purposes for which it is much more fitting than any other. In this way a powerful campaign cry is effectually smothered out.

THE manufacturing corporations of Lawrence have adopted the system of paying operatives by the hour, instead of by the day, and will allow each one to decide how many hours he will work beyond the regular time. It will, of course be easy to engage people to work whatever extra time the corporations may require, by special contract, and thus the bottom will be knocked out of any ten hour law that covers the period of labor of adult persons. Legislation cannot be provided which can hinder any man from being industrious during as many hours in a day as he may choose to work.

Thursday afternoon a party of men were drinking in a lager beer saloon on Fayette Court, Boston, when feeling quite exuberant they began to throw the beer glasses at a woman who was in a yard at the rear of No. 12 Avery street. The woman taking offence at their assault, began to use insulting language, when she was greeted with another shower of glass, one of which passed through the window of a house on Avery street striking a child on the head, causing its death in fifteen minutes. The men beat a hurried retreat and have not yet been recognized.

THE wags of Wyoming imagined that they had a great joke on Mrs. Esther Morris, Justice of the Peace for South Pass City, when they made her the instrument for committing to jail her own husband. But as Mr. Morris had an uncomfortable habit of going to bed with his boots on, and of occasionally waking Mrs. Morris from profound slumber to observe, "My de' Eshur I fee' so sho' s' (hic)," it is fair to suppose that if there was any joke in the matter Mrs. Morris's enjoyment of it must have greatly exceeded that of the "wags."

A PRESSING WANT.—Wanted, a man—to elope with my wife. He must be a man of courage, strong as an ox. He must be one with a healthy constitution, and able to do with little sleep. A sailor would suit best—one that's been accustomed to big blows. My wife has many good points for a man who could appreciate them. I cannot. She can talk faster than lightning can travel, and louder than a railroad whistle can scream. She doesn't care much for the amenities, but is very powerful on the acerbities, of life. She would be a good assistant in a vinegar factory, she's so sour, and would be a noble companion for a man living in a country where there are plenty of bears, she's so powerful in hugging. To any man who feels like enticing my wife to elope with him I will pay $60 and the expense of elopement. Should my blessing be considered of any consequence, I'll throw it in. For further particulars apply to HENRY JINKS.

CUNDURANGO—A CASE OF ITS ALLEGED CURATIVE PROPERTIES.—The Chicago *Tribune* has an editorial in which the following facts in regard to the virtues of the cundurango for the cure of cancer are given:

A citizen of high standing, of Chicago, took his wife to Dr. Bliss, at Washington, to be treated for a cancer. The case was a most serious one. He tried the cundurango and awaited the results. In two weeks the cancer exhibited alarming signs, threatening death from bleeding. An operation with the knife was resolved upon, and this soon explained the condition the cancer had assumed. The immense growth had become entirely separated from the flesh, but had prevented the latter from healing. As soon as the cancer was removed the flesh beneath was found free from disease, and the lady rapidly recovered, and is now at her house in this city, free from every sign or symptoms of cancer.

DOES the Providence *Journal*, not as a part of the woman question, but as part of resignation to abuse English, advise toleration of "ordained as "pastoress?" The phrase has come out hereabouts.—*Boston Transcript.*

No. If a woman is fit to take the office known in the New Testament as "pastor," for goodness' sake let her have the name too. Next we shall have "teacheress," "clerkess" and "lawyeress." Miss Evans will only be saved from being a "novelistess" by her masculine pseudonyme of George Eliot. Mrs. Browning wrote the same sort of article for poetry as her husband, but, alas, she is a "poetess." With the march of improvement even spinsters will need a more feminine termination, and we shall have "spinstress," and even "miliness," and "cookess." If we have "pastoress" we must also have "Doctress of Divinity."—*Providence Journal.*

MAINE SUNDAY SCHOOL ASSOCIATION.—To carry out the design of the last annual convention of this association, held at Gardiner, May 16, 18, 1871, the executive committee have organized a corps of instructors for the purpose of holding a series of county institutes the present season, and are sparing no pains or expense to make them available in the highest degree. In sacred geography and history, illustrative teaching, Bible truth and Sunday-school work, instructors have been engaged whose lectures no *live* Sunday-school man or woman can well afford to forego. The best apparatus, maps, chart, &c., will be used in illustration.

Localities which are the best centres for holding these institutes are sought, and it is hoped that but very few indeed of the great mass of Sunday-school teachers in the State will not be reached. The exercises will be public and the people in the localities visited will be welcome to attend.

Seven minnows, three horn pouts and a clam have been trying all summer to get above the Augusta dam.—*Ken. Jour.*

Why don't you petition the State to help the city of Augusta give the poor critters a lift?—*Waterville Mail.*

This looks like an irreverent allusion to the Spragues, but we hardly think it possible that the *Mail* could be guilty of such sacrilege.

The father of Henry Wyatt, the first soldier who fell fighting for the Confederate cause, is at present an inmate of the poor-house in Pitt county, N. C. A monument has been built to the memory of the son, while the father has been left to starve.

State News.

KENNEBEC COUNTY.

Mr. Elihu Day of Hallowell was knocked down Thursday evening by a passing carriage and considerably injured.

A meeting of the citizens of Gardiner is to be held Wednesday to express their views in relation to rendering of aid by the city to certain persons who wish to establish one or more shoe factories in the city, and take such action thereon as they may think expedient.

The Waterville Mail says Mr. Benj. Soule, aged 95 years and 4 months—supposed to be the oldest person in Waterville, died at the Town Farm on the 12th of September, of paralysis. He had resided on the farm ever since its purchase, and for some twenty years previous had been supported by the town—laboring in payment as much as he thought his age and health allowed.

LINCOLN COUNTY.

The Bath Times says two or three mackerel schooners seining off Boothbay and vicinity, have been doing remarkably well the past week. There has been a large school off the coast, but as the greater part of the fleet have been toward the westward there has not been a great yield except to the lucky ones who were about.

OXFORD COUNTY.

Saturday town fairs were held at Lovell, Sweden and Stowe.

The West Oxford Agricultural Society holds its annual fair this week, at Fryeburg, commencing Tuesday. The grounds, which had been broken in upon by the railway have been repaired by an extension, and a new road to the village has been opened.

PENOBSCOT COUNTY.

Gen. George Varney of Bangor has been appointed Chief Marshal of the procession on the 18th of Oct. In order that none may go hungry or without sleeping accommodations, a "Hospitality Committee" has been appointed by the Central Committee of the citizens of Bangor.

Phineas Vinal, Esq., for nearly sixty years a much respected citizen of Orono, died on Wednesday at the advanced age of 85.

The Whig learns that J. S. Hamilton, Esq., of Orono, died on Thursday, aged about 55 years. He had held many offices of responsibility in his town, and for a number of years represented it in the Legislature.

Teachers' Institute for Penobscot county, will be held as follows:—At Etna depot, Oct. 10th and 11th; Dexter, Oct. 12th, 13th and 14th; East Corinth, 16th and 17th; Bradford Corner, Oct. 18th and 19th; Hampden Academy, Oct. 20th and 21st. County Supervisor Plummer will be assisted in these Institutes by N. A. Luce, Supervisor of Waldo County, and W. H. Bigelow, Supervisor of Kennebec County.

SAGADAHOC COUNTY.

The Bath Times says it was a cruel misunderstanding which represented young Herbert Donnel as missing. He is safe and sound.

PISCATAQUIS COUNTY

[From our Correspondent.]

A Frenchman by the name of Kemo, had his shoulder dislocated, his leg fractured and his back broken, while at work on the B. and P. Railroad, by the falling of a bank near Low's bridge, in Guilford, on the 4th inst. His recovery is impossible. S.

WALDO COUNTY.

Conductor Beals of the Maine Central, fell Saturday morning, by his foot slipping on the platform at Burnham depot, and was thrown partly under the cars, but was as quickly hauled out by conductor Wescott, of the Belfast branch, and only received a bruised arm

The Cause and Cure of Consumption.

The primary cause of Consumption is derangement of the digestive organs. This derangement produces deficient nutrition and assimilation. By assimilation I mean that process by which the nutriment of the food is converted into blood, and thence into the solids of the body. Persons with digestion thus impaired, having the slightest predisposition to pulmonary disease, or if they take cold, will be very liable to have Consumption of the Lungs in some of its forms; and I hold that it will be impossible to cure any case of Consumption without first restoring a good digestion and healthy assimilation. This is your first, first thing to be done is to cleanse the stomach and bowels from all diseased mucus and slime which is clogging these organs so that they cannot perform their functions, and then rouse up and restore the liver to a healthy action. For this purpose, the surest and best remedy is Schenck's Mandrake Pills. These Pills cleanse the stomach and bowels of all the dead and morbid slime that is causing disease and decay in the whole system. They will clear out the liver of all diseased bile that has accumulated there, and arouse it up to a new and healthy action, by which natural and healthy bile is secreted.

The stomach, bowels and liver are thus cleansed by the use of Schenck's Mandrake Pills; but there remains in the stomach an excess of acid, the organ is torpid, and the appetite is poor. In the bowels, the lacteals are weak, and require strength and support. It is in a condition like this that Schenck's Seaweed Tonic proves to be the most valuable remedy ever discovered. It is alkaline, and has use will neutralize all excess of acid, making the stomach sweet and fresh; it will give permanent tone to this important organ, and create a good, hearty appetite, and prepare the system for the first process of a good digestion and ultimately make good, healthy, living blood.—After this preparatory treatment, what remains to cure most cases of Consumption is the rare and persevering use of Schenck's Pulmonic Syrup. The Pulmonic Syrup nourishes the system, purifies the blood, and is readily absorbed into the circulation, and thence distributed to the diseased lungs. There it ripens all morbid matters, whether in the form of abscesses or tubercles, and then assists Nature to expel all the diseased matter in the form of free expectoration, when once it ripens. It is then, by the great healing and purifying properties of Schenck's Pulmonic Syrup, that all ulcers and cavities are healed up sound and my patient is cured.

The essential thing to be done in curing Consumption is to get up a good appetite and a good digestion so that the body will grow in flesh and get strong.—If a person has disease of the lungs, a cavity or abscess there, the cavity cannot heal, the matter cannot ripen, so long as the system is below par. What is necessary to cure is a new order of things, a good appetite, a good nutrition, the body to grow in flesh and get fat; then Nature is helped, the cavities will heal, the matter will ripen and be thrown off in large quantities, and the person regain health and strength. This is the true and only plan to cure Consumption, and if a person's lungs are very bad, if the lungs are not entirely destroyed, or even if one lung is entirely gone, if there is enough vitality left in the other to heal up there is hope.

I have seen many persons cured with only one sound lung, live and enjoy life to a good old age.—This is what Schenck's medicines will do to cure Consumption. They will clean out the stomach, sweeten and strengthen it, get up a good digestion, and give Nature the assistance she needs to clear the system of all the disease that is in the lungs, whatever the form may be.

It is important that, while using Schenck's medicines, care should be exercised not to take cold; keep in-doors in cool and damp weather; avoid night air, and take out-door exercise only in a genial and warm sunshine.

I wish it distinctly understood that when I recommend a patient to be careful in regard to taking cold while using my medicine, I do so for a special reason. A man who has but partially recovered from the effects of a bad cold is far more liable to a relapse than one who has been entirely cured, and it is precisely the same in regard to consumption. So long as the lungs are not perfectly healed, just so long is there imminent danger of a full return of the disease. Hence it is that I so strenuously caution pulmonary patients against exposing themselves to an atmosphere that is not genial and pleasant. Confirmed consumptives' lungs are a mass of sores, which the least change of atmosphere will inflame. The grand secret of my success with my medicines consists in my ability to subdue inflamation instead of provoking it, as many of the faculty do. An inflamed lung cannot with safety to the patient be exposed to the biting blasts of winter or the chilling winds of spring or autumn. It should be carefully shielded from all irritating influences. The utmost caution should be observed in this particular, as without it a cure under almost any circumstances is an impossibility.

The person should be kept on a wholesome and nutritious diet, and all the medicines continued until the body has restored to it the natural quantity of flesh and strength.

I was myself cured by this treatment of the worst kind of Consumption and have lived to get fat and hearty these many years, with one lung mostly gone. I have cured thousands since, and very many have been cured by this treatment whom I have never seen.

About the first of October I expect to take possession of my new building at the north-east corner of Sixth and Arch streets, where I shall be pleased to give advice to all who may require it.

Full directions accompany all my remedies, so that a person in any part of the world can be readily cured by a strict observance of the same.

BONDS

—OF THE—

EUROPEAN AND NORTH AMERICAN RAILWAY CO.

THE E. & N. A. RAILWAY is completed from Bangor, Maine, to St. John, New Brunswick, a distance of 272 miles,—with the exception of 58 miles between Winn, Me., and the boundary line of the State at Vanceboro'. On this portion the track is now being laid, both from Winn *eastward* and from Vanceboro' *westward* and the work will be completed and trains running from Bangor to St. John in September next.

The road will then be

THE ONLY RAILWAY

CONNECTING THE UNITED STATES AND THE BRITISH PROVINCES (New Brunswick and Nova Scotia). The connection of the maritime Provinces is about ONE MILLION, and all the land travel, freight, mails, &c., between them and the United States, will pass over this Trunk line, which is WITHOUT COMPETITION.

Although not yet completed, the business of the road is already far greater than its most sanguine friends predicted, and is continually increasing.

The net earnings from Local Business alone, on the 56 miles completed in Maine, already exceed the interest on two and one quarter millions of dollars, and will be largely increasing after sept next by the business to and from the Provinces.

To complete this road, and to equip it as fully as its present large business and the immediate increase consequent upon its completion, requires—the Company has issued its Bonds to the amount of Two Millions of Dollars, secured by a

FIRST & ONLY MORTGAGE

ON ITS ENTIRE ROAD AND PROPERTY FROM WINN to VANCEBORO' (besides a *Second* Mortgage on the entire road and equipments from Bangor to Winn, 56 miles. This portion cost some $2 500,000, and the only lien thereon is a mortgage to the city of Bangor for $1,000,000) and, in addition thereto, by a FIRST AND ONLY MORTGAGE on

800,000 Acres of Land!

Said lands being the same granted by the State of Maine to aid the construction of this road. They are situated along the Penobscot and St. John rivers, and are heavily timbered and valuable. Large tracts, especially in the fertile Aroostook Valley, (the finest agricultural district in the State,) are valuable for farming lands as well as for their timber. This immense grant of lands equals about

14,000 Acres to each Mile

of Railroad with which they are mortgaged. They cover 1250 square miles (nearly as large as the State of Rhode Island, which is 1306 square miles,) and are of great value.

Thus, besides the mortgage of the Railway, its equipments, &c., which alone is ample security for the Bonds, there are timber and farm lands to the amount of

400 Acres to each Bond

also pledged to ensure the payment thereof.

The Bonds are for $1000 each, date March 1, 1899, bear interest at

SIX PER CENT. PER ANNUM,

PRINCIPAL AND INTEREST PAYABLE IN

GOLD COIN,

Free from U. S. Taxation.

Coupons payable March 1 and September 1, in New York. Bonds registered if desired. Coupons made payable (if so each) in London, England, if preferred.

SINKING FUND—All proceeds of sales of land, as well as of timber and other products therefrom, are, by the Trustees, to be invested in these Bonds if they can be bought at par or less; otherwise in United States, State or Municipal Securities. And on July 1, 1879, and annually thereafter until these Bonds become due or are all paid, the E. & N. A. Railway Co. is bound to pay to the Trustees a sum of money equal to one per cent. of the amount of Bonds outstanding. Such amounts, and all interest received on securities, belonging to the Sinking Fund are to be invested as above stated, and these accumulations are solely for the purpose of additionally providing for the redemption of these Bonds. The Sinking Fund constitutes a third great element of security and strength, and adds to the safety of these Bonds.

The Trustees are Hon. HANNIBAL HAMLIN, of Bangor, Me., and J. EDGAR THOMSON, Esq., of Philadelphia, Pa.

The Trustees are authorized to receive the Bonds at Par and Accrued Interest in payment for any of the lands at the appraised value.

These very desirable securities for sale at

90 and Accrued Interest in Currency.

U. S. Bonds and all marketable securities received at highest market price in exchange for these Bonds, and coin be sent by Express and these returned by Express, free of expense to the purchaser.

Pamphlets giving further particulars concerning the connections and business, with Maps, showing the location and lands of this road, sent free on application to

ELIAS MERRILL,

Principal Agent of the Company for the Sale of Bonds,

100 Middle Street.....Portland.

On completion (in 1872) of 60 miles of Railroad now building, between St. John, N. B, and Halifax, N. S, there will be an unbroken line of Railway from Halifax to all the chief cities of the United States, and as two or three days of ocean travel can be avoided, and about 36 hours' time saved, from New York, on going to or coming from Europe, by rail to or from **Halifax**, a large business in passengers, mails and freight will thereby be added to the traffic over the E. & N. A. Railway.

United States Circuit Court

JUDGE FOX PRESIDING.

FRIDAY.—Sylvina J. Allen, in eq. vs. Andrew Morse. Bill brought to enforce a contract in relation to real estate, in which it is alleged that the father of the respondent agreed to convey. Argued by J. H. Webster for complainant and A. K. Knowlton for respondent.

SHEPLEY AND FOX PRESIDING.

SATURDAY.—Thomas M. Given, assignee, in eq. vs. Joseph Smith, 4th. Argued on amended bill and answer by W. L. Putnam for complainant, and E. B. Smith for respondent.

Clarence Hale and Edward W. Fox of Portland, and A. C. Stilphen of Gardiner, were admitted to practice in this Court.

Wm. B. Joy having pleaded guilty to withholding pension money from a pensioner, was sentenced to pay a fine of $100 and costs. Paid.

At 12 o'clock Judge Clifford delivered an elaborate opinion on two cases of habeas corpus, involving the law on the subject of the enlistment of minors and the powers of the courts in this class of cases. The cases were those of William K. Harrington and John T. Seabury for the release of their minor sons. Judge Fox had ordered them discharged and from his decision Maj. Barr, Judge Advocate, appealed. The decrees of the District Court were affirmed. S. C. Strout for petitioners.

Superior Court.

OCTOBER CIVIL TERM—GODDARD, J., PRESIDING.

SATURDAY.—Levi R. Paine v. Samuel L. Carleton. Action of assumpsit on account annexed for clapboards. Amount claimed $40. Verdict for plaintiff for full amount claimed with interest. Defendant moves for a new trial.

Miller. Carleton *pro se.*

Court adjourned until 10 o'clock Monday.

Municipal Court.

JUDGE MORRIS PRESIDING.

SATURDAY.—William Mulligan, for drunkenness and disturbance, was fined $5 and costs.

Michael Murphy having proved that the liquors seized on his premises were not his and that he had no knowledge of them, was discharged.

A. W. Bradbury.

Several boys who were arrested for creating a disturbance in the Intermediate School, were let off on promises to behave themselves in the future.

Supreme Judicial Court.

YORK COUNTY.

YORK, SS.—SEPTEMBER TERM, A. D. 1871—KENT. J. PRESIDING—AT ALFRED.

SATURDAY.—Timothy B. Hussey and Sarah Hussey, appellants from Judge of Probate, vs. Mary Jane Hussey.

William Hussey of North Berwick, aged 70 years, a Quaker, the father of four children, Timothy and Sarah by a second wife, and Charles and Wm. Penn by his third wife, living, signed what purported to be his last will and testament dated April 25, 1870, five days before died. His widow, Mary Jane, is named executrix in the will, which disposes of some $28,000 or $20,000 to herself and her two own children to the exclusion of the children by a former wife, except a thousand dollars to Sarah, an invalid. The will was approved by the Judge of Probate. Timothy and Sarah appeal to this court and seek to set aside the will because of undue influence in procuring it. It was urged in support of the will that it is conceded he was of sound mind and memory, and there is no proof of specific acts of undue influence; that the will itself is not of such a character as to authorize an inference of undue influence without positive proof; that Sarah was an invalid it is true; but the reason of the small share of the bequest is that she was not expected to live long to need it, and that she had spent her time mostly with her mother's first children, her half brothers and sisters, who are able and willing to assist her. As to Timothy, he has been well educated, is in a good business and comfortably off; has been assisted by his father in business, by the loan of his name, by the loan of his money, and a short time before he died by giving up a $1000 note that he held against him. Her two children are younger, one of them but just of age and left without the care of a father, the other in California.

On the other hand the appellants contend that it is not the will of their father. Three days before the document was signed, the father had told both Timothy and Sarah that he should give them $4000 each and that they should share substantially the same as the rest of the children. Haven A. Butler, the scrivener who drew the will, took memoranda from the testator and put into form which contained these provisions. And the old gentleman, it is contended, would not in three days make this radical change, unless from undue influence from parties interested. The old gentleman at first undertook to satisfy all concerned, but was unable to do so; parties were formed, and the wife and child being on the ground seemed to have the winning side. It appears that the old gentleman was not quite satisfied with his will after he made it and sent for Butler to draw up a deed of land worth $3000 to Timothy, which was not acknowledged nor delivered, and which the contestants say will not be valid.

A large number of very intelligent witnesses were examined on both sides, and an interesting history was elicited which cannot be told in this brief newspaper sketch. The jury disagreed. It is understood that the ballot stood eleven in favor of sustaining the will.

S. C. Strout with Kimball, for the will; Drew, Yeaton and Hobbs for the appellants.

Court adjourned finally.

Brief Jottings.

The sale of reserved seats for the People's Course opens this morning at Stockbridge's music store, and as there are but a few reserved in the gallery, those who desire to secure seats should call early. The price is only 75 cents for the course.

We trust our readers will remember especially at this season of the year to drop a piece of scrip, or a few cents, into the hand of the poor blind man who sits so patiently on the corner of Elm and Congress streets, endeavoring to sell songs. His wife, who attends him, has some very nice rugs for sale. They are deserving people and solicit charity in a quiet way without intruding upon any one.

We learn that Rev. W. H. H. Pillsbury is quite unwell, and that his physician did not deem it prudent for him to preach, so no services were held in Congress St. M. E. Church yesterday. It is hoped he will be out in a few days.

The excursion from Rochester and and clam bake will happen to-morrow.

The monthly meeting of the Young Men's Christian Association will be held at their rooms this evening at 7 1 2 o'clock.

At the Allen Mission Chapel last evening Mr. Francis Murphy delivered a very able address on temperance. At the Preble street chapel Rev. James M. Palmer spoke upon the same subject with his usual power and eloquence.

The Town Fair at Cumberland will take place to-morrow.

Rev. Newman Smyth, of Bangor, preached at the State street church yesterday, and Rev. Rush R. Shippen, Secretary of the American Unitarian Association, at the First Parish.

A new Pullman car called the "Spartan" has been put on the Eastern railroad.

There is a tree at Morrill's Corner, in Deering, that is bearing just now both apples and blossoms.

One of the assistant architects of the U. S. Treasury Department arrived in town on Saturday to make arrangements for the resumption of work on the custom house and post office buildings. As ten or twelve days more labor will complete them this seems to be good economy.

The trips of the steamer Emperor between Portland and Yarmouth' N. S., have been temporarily suspended.

George W. Hammond, Esq., of the Cumberland Mills Paper Manufactory, arrived home from a four months sojourn in Europe, on Wednesday last.

Mr. Wm. G. Spring has been appointed mail agent on the Portland & Ogdensburg route, to run alternate trips with route-agent Dow.

The Portland military companies will leave for Bangor by special train on the morning of Tuesday, the 17th inst., at half-past four, and arrive at Bangor about eleven o'clock. They will be quartered in halls during their stay.

Adjutant General Murray has borrowed four hundred tents of Massachusetts for the Bangor muster.

At the September term of the New Hampshire Supreme Court, the indictments against John W. Sanborn, the young man who was implicated in the Nutter forgeries, were continued to the next term. Bail on each indictment was fixed at $2000, but Sanborn not being able to procure that amount remains in jail.

Four drunks composed the entire record at the police station at 11 o'clock last night.

TRADE.—The dry goods trade is active, and the prospect good for an excellent fall business. The imports during the past week amounted in value to over two and a half millions of dollars, and all have been put on the market—so that the supply is ample. The total imports of dry goods amount to $107,000,000, or nearly $29,000,000 over the corresponding period last year. The present month is likely to be a brisk one among jobbers.

THE UNION SERGEANT.—The second performance of this great military drama drew a very large audience at City Hall on Saturday evening. This drama possesses many points of similarity to the Drummer Boy, and some of the scenes are nearly identical. Opening at a quiet farm house in New England, upon a family group gathered together at the fireside discussing the probabilities and possibilities of the approaching struggle between the North and South, it traces some of the principal scenes and events of the great rebellion, including the mob at Baltimore, the battle of Gettysburg, the Union prisoners in Belle Isle prison, the evacuation of Richmond and the final surrender of Lee at Appomattox. It will readily be seen from this brief synopsis that a drama of this character, interspersed with songs, tableaux and humorous incidents, cannot fail to be exceedingly interesting to all classes of the community. Notwithstanding the very large number of characters included in the drama, there are really but three that rise to any degree of prominence. The most important character in the play is nominally that of Frank Weston, the Union Sergeant, and to properly impersonate this character requires an actor of considerable talent and experience, as some of the scenes afford a fine opportunity for a display of the melodramatic school of acting. The character of Sim Scudder, the live Yankee, is the second in importance, and it is admirably sustained by Mr. Billy Fisher, who received great applause in certain scenes of the drama. The third important character is that of Jake, the colored servant, which is very finely impersonated by Master James H. O'Donnell, who enters thoroughly into the spirit of the character, and received at each performance the well merited tokens of applause. We have before alluded to the splendid music by the orchestra from the Portland Band, and also to the fine vocal music by Dr. Fernald and his assistants. We will only add that the singing of "The Faded Coat of Blue" by Miss Alice Carle is one of the most attractive features of the entertainment, and receives the heartiest demonstrations of applause. The worthy object of the performance is too well known to be again referred to, and we sincerely hope that our citizens will crowd the hall each evening, and thereby contribute liberally to the support of the widows and orphans of our deceased soldiers.

METHODIST MASS CONVENTION.—This State Convention, which has excited much interest among our Methodist brethren, will commence to-morrow and continue two days. It will be attended by many able men from the New England and other States, and will, we have no doubt, exercise an important influence upon the noble objects of this zealous religious denomination. The varied interests involved in its religious economy are to be discussed, and their more wide-spread usefulness urged, and in that discussion will be developed the powers of reasoning of men who for years past have been educated in the schools of close argument and deduction from logical premises. The meetings, therefore, will possess extraordinary interest to all lovers of intellectual effort, whether they belong to this or that denomination. They will be held in the Chestnut street Church, and we look for full pews in that capacious audience room during the sessions. A programme of the exercises from day to day will be issued to-morrow morning, so that those who cannot attend all the meetings may make their selections. We repeat we have no doubt the Convention will exercise a good influence and be largely promotive of the religious advancement of this worthy Brotherhood.

THEATRE.—At the matinee Saturday afternoon quite a large audience was present, and the familiar drama of Uncle Tom's Cabin was very finely presented. Miss Fanny Herring as Topsy created quite a sensation, her make-up being decidedly original, and her impersonation of the character perfectly inimitable. In the evening a large audience was in attendance and the performance was satisfactorily in every respect. The French Spy is quite popular with a certain class of theatre-goers, and its presentation on this occasion was fully up to the standard. In the drama of Michael Erle, Mr. J. C. Myers pleased the audience by his impersonation of Michael, the Maniac.

This evening the new sensational drama of Victory, or the Battle of Right and Wrong will be presented. This drama will no doubt prove the great hit of the season. Miss Fanny Herring will sustain the dual character of Olive, of the merry heart, and Eddie, the cabin boy, while Mr. J. H. Hunt'ey will appear as Jaggers, clerk to Aaron May, and afterwards as Fangs, the Mutineer. The old flag of the Enterprise, which she wore at her mast-head at the time of her engagement and capture of the Boxer, on Sept. 13, 1813, will be used during the play.

METHODIST CONVENTION.—A mass Methodist Convention for the State, will be held in Portland, Chestnut street church, commencing at 9 o'clock, Oct. 10th, (to-morrow) and continuing two days. The object of the convention will be to confer together, with regard to the general interests of the denomination in the State. Among the subjects for essays and discussions are the following:

1. The History of Methodism in Maine with Comparative Statistics.
2. Methodism and the State.
3. The various Educational Interests of the Denomination.
4. Finances.
5. The Mission Work in the State.
6. Changes in the Polity or Usages of the Denomination.

Other subjects will be considered at the pleasure of the convention. It is expected that some of the most eminent preachers of the denomination will be present.

THE MERCANTILE LIBRARY ROOM.—The Fall and Winter campaign of the M. L. A. commenced by resuming the regular weekly meetings on Saturday evening last. There was no regular question presented for debate, but a general discussion was had and several new members were admitted. The "Old Mercantile" is in splendid condition now. More than two hundred volumes have been added to the library within a month past. The plan of keeping the rooms open every afternoon and evening has been a great success, as the crowds of subscribers which throng the library room day and evening is abundant evidence. There is quite an effort being made with the youngest members to take a more active part in the debates.

THE ARMY AND NAVY UNION.—The promised announcements in regard to the coming couse of entertainments by this organization is made in this morning's PRESS. The great success which attended the efforts of the committee last winter inspired confidence in the promises of the approaching season, and the promise will be more than kept. There is a power in the names presented that cannot be increased by anything we can say. Nothing could be more attractive. We desire, however, to direct especial attention to the exceedingly low price at which the tickets are put.

BOSTON AND MAINE EXTENSION.—Work on on the Boston and Maine extension was begun at Biddeford by Messrs. Bonallie & Robbins and at Oak Hill in Scarboro by Messrs. Savage, Berry & Co., last week. Messrs. Shanahan & Dolan have a crew on the ground at Old Orchard and will begin work this week. Shanties are also going up at North Berwick. It is the intention of the company to press the work or construction through the winter, so as to have the road bed ready for the track on the 1st of June.

THE HUTCHINSON FAMILY.—One of the original Hutchinson Family, which were such great favorites a quarter of a century ago, will give a concert at Fluent Hall on Wednesday evening. The company embraces Asa, Lizzie C., Abby, Fred and Dennett, and from the large repatore they will select some new compositions as well as a number of old familiar ones. It is said that their voices have the sweetness and power of old times, and doubtless hundreds will go to hear them.

MISCELLANEOUS NOTICES.

KESAN SOAP, Turtle-oil Soap, Sunflower Soap, Marshmallow Soap, Skin Soap, English, (very nice) Honey, Glycerine, Cocoa-nut, *Crystal*, Palm, Oil, Ess. Bouquet, Jockey Club, Rose Carbolic, Castile genuine, White and Red, Erasive, Brown Windsor, old fashioned and good, Shaving, Military, Cashmere Bouquet, Cologne Soap, new and Sweet, Sand, Pumice and Tar, Pellucid Glycerine, Vienna Bouquet, in fact Whittier has in stock *one hundred and thirty-four* varieties of soaps of all prices from five cents to two dollars a cake—and for all purposes, toilet, laundry, paint-cleaning, clothes-cleansing, Sanitary purposes and medicinal uses.

Whittier's soap show case is worth an examination, for any one passing by.

Goods cheerfully shown without urging to purchase. WHITTIER, Druggist.

CALL at Orin Hawkes & Co., manufacturers of Men's and Boys' Clothing, and examine their large stock of goods for Fall wear.

FELLOW'S COMPOUND SYRUP OF HYPOPHOSPHITES is an excellent nervous tonic. It exerts a direct influence on the nervous system, and through it it invigorates the body.

ENGLISH PERFUMES, fresh, sweet, delightful, at Whittier's.

BY TELEGRAPH

TO THE DAILY PRESS.

FOREIGN.

Revolution Imminent.

JUAREZ INSTALLED PRESIDENT.

CITY OF MEXICO, Sept. 12.—(N. Y. Herald's Special.) Juarez was installed President last night, amid great excitement. There are no revolutionary disturbances yet. There are rumors of a change in the Cabinet. Pedro Martinez has issued a pronunciamento near Gallano in Larralon, and another in Casaled.

Generals Marquis Porra and Escupero and Colonels Rojas and Dalli have pronounced against Juarez in Sinaloa. General Porra is the defeated candidate for Governor.

The President's Message.

CITY OF MEXICO, Sept. 21—via Matamoras. All is quiet here. The President's message is conciliatory, but firm. It recommends material improvements, the building of railroads and protection of the coast. It also sanctions the making of a treaty with foreign nations.—The President has a majority in Congress.

The Harvest Home and Brothers.

CITY OF MEXICO, Sept. 21—In a difficulty between the captain of the barque Brothers and the Mexican authorities, the captain and crew of the Harvest Home came to the aid of the Brothers, and several Mexicans were killed. The captain and crew of both vessels left in the Harvest Home, abandoning the Brothers, which was taken possession of by the American Consul.

Great Revolution.

MATAMORAS, Oct. 2.—There is another great revolution in Mexico and the State of Nueva Leon takes the lead. Gen. Pedro Martinez pronounced in Galena against the Juarez Government and was seconded by Generals Jeromino and Trevino, the Governor of Nueva Leon, together with all the State authorities and several other chieftains. Their combined forces are said to be marching on Camargo and Matamoras, with the view of occupying the Custom House on the frontier.

The first step taken by the authorities of Nueva Leon was to throw into prison all the employes of the Federal Government. It is expected that this movement will be seconded by the neighboring States and the revolution become general. Porfirio Diez is reported to have said that he would march against those who should pronounce against the Juarez Government, but his loyalty is much doubted.

Matamoras and the frontier are yet quiet, nevertheless the merchants feel anxious about coming events. Generals Polairo and Cortina have issued a proclamation to the soldiers under their respective commands and to the citizens of the frontier in general, to stand and fight for Juarez.

Great preparations are being made in Matamoras for the defense of the city, and the cavalry has left for the front. The telegraph is only working as far as Merc, and no further news is reported at this hour. Great excitement is reported from all parts of Mexico on account of such stirring news.

Arrival of the Arizona.

SAN FRANCISCO, Oct. 7.—Steamship Arizona, from China and Japan, arrived to-day. She brought 2'490 packages, weighing 1,751 tons of tea, silk and other merchandise for New York, Chicago, St. Louis and Boston.

Important.

The Arizona brings the following advices from Yokahoma, Sept. 17th. The Japanese Government has issued a decree ceding over the position of Hans or Damos. This reduces the people who have been rulers for over 300 years to the level of the common people, and immediately annexes their territories to the government. There is no longer any aristocracy or religion except through the Mikado.

Russian Annexation.

The Russians have annexed the entire Sagalien Islands and the embassies have been unable to alter it.

Various Matters.

The new coin is refused at the custom house except at a heavy discount, which causes great distrust.

The Japanese merchants grieve over the deterioration of the silk and decline in trade caused by the unskillful and careless manner in which the silk is prepared for market. Merchants have asked the chamber of commerce to assist them in establishing an inspection house where all silk unfit for market shall be returned to the interior.

The submarine cable between Shanghai and Nagaski is in successful operation.

The material for the cable line between Nagaski and Yokahoma has been ordered and the line will be in working order within a year.

American Stock Business in China.

The decision of the Acting Secretary of State upholding the Japanese Government in closing Van Reed's Stock Exchange at Yeddo, and asserting that although lawful in America, yet every nation is the judge of what laws are required to preserve the morale of its people, has created much comment among all classes of foreigners as affecting their treaty rights with this government.

The stock exchanges of other nationalities and twenty native establishments are in operation with the sanction of the government.

An appeal will be made to Washington to uphold the treaty rights granting some facilities to American trade as accorded to other nationalities.

Railroads in China.

The coolies are constantly employed on the railroad between Yokohama and Yeddo. The first locomotive run over the road, three miles to Kanagawa, attracted great attention. The road from Osika to Taobe progresses rapidly, and a new line of sixty miles, costing $2,000,000, running through Kioto to Tsurga, is contemplated.

The Japanese government has apologized to the American Minister for libel against the Hawaiian government, published in the Japanese Times.

Tea and Silk.

Japanese merchants threaten to burn half the stock of silk worm eggs, and so force the market.

Tea is declining.

Large settlements of silk have been make at $20 per picul.

Exchange on New York 108.

Russel's Sentence.

PARIS, Oct. 7.—The Court of Revision to which the case of Russel was appealed, has adjudged him guilty and declared he has incurred the penalty of death.

The Bonapartists.

The Republican journals of this city demand of Thiers that he take prompt and vigorous action for the suppression of Bonapartist conspiracies.

Algerian Waters.

Continued agitation in Algerian possessions of France causes feeling of uneasiness lest the government may not be exercising necessary vigilance and energy in suppressing the troubles which it is feared may grow to such proportions as to cause serious embarrassment and expense or even to necessitate the abandonment of the colony.

Arrest of a Rioter.

Dombroski, who was leader of the mob in Altock, on German residenes, in Lyons, has been arrested, tried and sentenced to two months imprisonment and a fine of one hundred francs.

Sudden Death of a Minister.

Lombrecht, Minister of the Interior, died suddenly this morning at his residence while dressing.

Foreign Items.

The King of Sweden closed the Rigsdag in a speech, Saturday, in which he regretted the failure of the lower house to pass the bill reorganizing the army.

The Spanish Minister of State has telegraphed the Captain General of Cuba that necessary reinforcements will be despatched to uphold the national authority and maintain the integrity of Spanish domains.

Two convents in Rome have been occupied by Italian troops. The Italian parliament will be opened about the middle of November.

The Spanish government has declared that it cannot prosecute members of the international society so long as they obey the laws.

Three hundred workmen of Ghent are on a strike for ten hours a day with no change in wages and double pay for over time.

There will be a meeting at an early day to discuss the question of modifying the commercial treaty between France and England.

The business portion, embracing one-half of the town of Sandhurst, was destroyed by fire recently. Loss $500,000.

UTAH.

Warrant for Arrest of Cannon.

SALT LAKE, Oct. 7.—A warrant for the arrest of George I. Cannon, editor of the Deseret News and one of the Apostles, and chief aspirant for the position of successor to Brigham Young, was placed in the hands of the United States Marshal to day, but has not been served probably as Mr. Cannon was engaged at the Mormon Conference. The charge against him is for lewd and lascivious cohabitation with several different women. He will doubtless be taken before Judge McKean on Monday. It is reported that the defence in this case and in Brigham Young's and Major Wells' will be that the extra women are the wives of defendants, whereupon the charge of bigamy will be presented under Congressional law bearing upon the subject.

The Mormon Conference.

Nothing remarkable occurred in the Mormon Conference this morning. Addresses were moderate. Everybody was expecting a speech from Brigham Young. He will preach to-morrow if well enough.

Everything is quiet both as regards political and ecclesiastical matters. The people ridicule the idea of a disturbance or outbreak, and are as safe here as they would be in New York or San Francisco, and perhaps safer.

NEW HAMPSHIRE.

The Liquor Law.

CONCORD, Oct. 7.—Thirty-three liquor indictments were found by the grand jury, which has just arisen, which include all the apothecary and ale stores in Concord. There will be a lively fight over some of the trials, and considerable excitement has resulted in town.—The County Solicitor comes in for many hard words, as prompted to such action by a severe cut received in the legislative debate last June. One of the indicted parties is a politician of national prominence.

Office Seekers Grumble.

In regard to the question of the Warden of the State Prison there is a strong and growing sentiment among all to let well enough alone, as Warden Pillsbury is an excellent officer.—One or two appointments made by the present Executive have caused open grumbling among the Democrats and a change at the prison unless much for the better would not improve the condition of things.

Advices from Galveston state that in the Congressional elections in Texas the Democratic net gain over the vote of 1869, so far as heard from, is as follows: 1st district, five counties, 235; 2d district, five counties, 600; 3d district, five counties, 2436; 4th district, twelve counties, 2846. This indicates the election of the entire Democratic delegation to Congress.

NEW YORK.

The Tammany Investigation

Gov. Hoffman Visited.

NEW YORK, Oct. 7.—At a meeting of a Committee of Seventy, last night, a committee was appointed, of which Judge Pierrepont is chair man, to wait on Governor Hoffman and request him to instruct the State Attorney General to bring actions against the men whom the committee will prove to have improperly acquired moneys belonging to the city, the expense of such actions to be borne by the committee.

The Champion Plasterer.

It is stated that Garvey, the plasterer, has fled. The contractor who built Tammany Hall building, makes affidavit that he would gladly contract to plaster the new Court House for $50,000, and do the repairs for less than that. Garvey received $1,500,000, for the above mentioned work.

Tammany Defiant.

William M. Tweed, last evening stated that not a man in his department would be discharged nor any work stopped, and that all should be paid just as if there were no such thing as a letter from Deputy Comptroller Green.

Rascals Select their Judges.

It is stated that the present Grand Jury which is expected to try the ring was selected by Mayor Hall.

Thieves Disgorge.

The Tribune states that another tradesman will follow Keyser's example and make over a large amount of property to the Citizens Committee.

The Exposure Coming.

A member of the Citizens' Committee states that the evidence shows that Ingersoll stole twenty thousand dollars worth of furniture from the city armories; that Garvey has fled to Europe, but that all his property will be seized; that full details of the *modus operandi* of the frauds upon the Treasury by the ring have been furnished by Keyser, and that the evidence against the principal thieves is overwhelming. The affidavits against Tweed, Sweeny and Hall are nearly finished, and will be served in a day or two.

The case in which James H. Ingersoll, one of the city contractors, is summoned for examination, was resumed this morning in the Supreme Court.

Judge Ingraham, Gen. Barlow and George C. Barrett, counsel for the Citizens' Committee of Seventy, wanted to proceed, but ex-Judge Fullerton objected because his associate counsel, Mr. Stoughton, had not arrived, and that Stoughton would move to vacate the order for the examination of Ingersoll. The case was then adjourned to await the arrival of Stoughton.

The Times on the Situation.

NEW YORK, Oct. 8.—The Times says that the facts stated by Keyser may induce the public to suspend judgment, but his two months service has helped the thieves in office to cover their tracks. He came too soon put in proper hands such information as to which of the warrants are forgeries.

The Times expresses the belief that Judge Barnard will dismiss the grand jury which was packed to be in readiness for the case of Hall.

Another Fraud Exposed.

Mr. Donnouwo, the fresco artist, yesterday stated under oath before internal revenue assessor Fuidson, that he never received a cent of the $66,412 alleged in the Comptroller's books to have been paid to him in 1869. He said that he was only an employe of Garvey and received $100 per week while at work, or about nine or ten months in the year. He never signed any warrants or vouchers for money from the city government and never had any transactions with it.

Rumor says County Auditor Lynes has has become insane. Deputy Comptroller Green has dismissed the holders of several sinecures in the county. It is stated that persons in the Comptroller's office assert positively that the raising of the vouchers of Kyser, Davidson, Schuyler and others was all done by County Auditor Watson.

Boss Tweed Again.

Tweed will to-morrow reply to Deputy Comptroller Green's letter. He insists that he has a legal right to raise money to the Croton aqueduct, the bonds of which, he has half a million dollars in reserve, and he will therefore continue the work on the aqueduct, it being an imperative necessity. He also said he was tired of the talk about his arrest. There would be no trouble in finding him. He was anxious to make his defence in court. All the frauds and trouble came from the old board of supervisors, and the action of that board would be his individual defence.

The City Chamberlain says of the city finances that there are funds in trust amounting to a million and a quarter of dollars, a million of which is invested in bonds and mortgages, the rest in New York securities, and is in the vault of the Park Bank, which is rented by the city for the purpose, at $50,000 yearly.

Address to Workingmen.

The Committee of Seventy have prepared an address to the workingmen, setting forth clearly and convincing the method by which the "ring" has robbed the city Treasury and deceived the working men into supporting them.

The Forged Vouchers.

Members of the committee cast the blame and odium for the false and forged vouchers upon the late Auditor of the county, Watson, who cannot reply but the committee have proofs overwhelming against men now living, and at the proper time they will be forthcoming, and men whom the community would hardly suspect, will be found having a hand in the city Treasury and dividing the spoils.

Pension Agent in Trouble

G. W. Van Buren, United States Pension Agent for this city, was arrested yesterday. He is charged by the Commissioner of Pensions, Baker, with being a defaulter to the amount of $11,000. He gave bail in $15,000 to appear for trial.

The Valient and Gallant Fisk.

It is rumored that a civil suit has been commenced in the Supreme Court against James Fisk, Jr., by a lady whose name has been intimately associated with him. Affidavits in the case it is alleged, expose much of the secret history of the Erie magnate and shows to what extent the Tammany ring and the Erie ring have united for plunder.

A Sacred Trust.

A member of the New York Yacht Club expresses his intention, unless the club reconsiders its deter to risk the Queen's cup in the hands of a single yacht against the Lavonia, to apply to the courts for an injunction restraining the club from violating the sacred trust under which all its vessels have a right to join in the contest.

Loss of A Maine Vessel.

Schooner Emma Day of Pembroke, Me., was seen on the 6th, off Little Gale Light, bottom up, with four men on her. She was taken in two by a revenue cutter for Gardiner Bay.

The Way it was Done.

The Tribune of Monday will state from undoubted authority that it was the custom of the late County Auditor Watson to procure sever al copies of an original bill, have a warrant drawn for each, and collect the several amounts. The forgery is said to have been made successfully an every-day affair; that Watson and Woodward were not particular in the matter of closely imitating the handwriting of the person whose name they forged.

WASHINGTON.

Appointments.

WASHINGTON, Oct. 7.—The President made the following appointments to-day:

Thaddeus D. Decrisse, collector of District of Nantucket, Mass; Robert K. Durrah, appraiser of merchandise for Boston; George A. Eades, collector of customs for District of Alaska; Henry M. Smith, surveyor of customs for Omaha; Edward L. Farmer, appraiser of merchandise for Detroit, Michigan; Pascal P. Pidder, collector of customs for Dunkirk, N. Y. Third Lieutenants in the revenue service: Edmund Burke, Charles E. Branland, John Morrissey, Jr., Wm. K. Orcutt, William H. Hawes, James B. Butt, A. E. Bateman, W. S. Baldwin, H. B. Bogers and Albert Buhner.

Financial.

Receipts of fractional currency for the week, $684,400; shipments, $525,800; notes, $4,113,000.

The Treasury holds as security for circulating National Bank notes, $366,205 800; and for deposits of public money, $15 519,500.

Internal revenue receipts to day were $293,468; for fiscal year to date, $33,377,129; national currency outstanding at this date, $323,259,270.

Treasury Decisions.

The following are recent rulings of the Treasurer of United States:

National banks not designated as depositories are not required, either by law or regulation to redeem either defaced or mutilated currency of the United States. Printed diagrams for measuring mutilated currency are furnished gratuitously by the Treasurer's office. No base metal coins are now redeemed at the treasury. The base metal coinage of every description is redeemable at the United States mint at Philadelphia in sums of $20,000 and upwards on the terms set forth in the circular from the Secretary of the Treasury, dated April 12, 1871. Proof must be adduced by affidavit that the missing parts of mutilated legal tender notes presented to the Treasurer for redemption have been totally destroyed and the cause and manner of destruction must be stated before the notes will be redeemed for their full face value. The character of the affiant must be certified by a magistrate or other public officer. An officer of a bank giving a power of attorney to collect interest on stock of the United States should send with the power a certified copy of the resolution of the board from which he derives authority. The application of a National bank to have its office as a depository revoked should be addressed to the Secretary of the Treasury. The rule in force requires an examination of the bank depositors account by some person designated by the Secretary, and the payment of any balance due the treasury which may be shown upon such recommendation before bonds of the bank in treasurer's custody as security for safe-keeping of public deposits can be assigned to the bank and delivered. The number of coupons of U. S. bonds is so great that the treasurer cannot undertake to stop the payment on any particular coupons, and even should he do so the stoppage could not be lawfully enforced against an innocent holder of coupon money borrowed by a National bank on securities or on bills payable would not be subject to semi-annual duty as a part of its deposits, but money standing on its books to credit and subject to drafts any party is dutiable as a deposit, no matter how or from whom it may have been borrowed. A public office cannot depute the duties of his office to an attorney. The trust, as expressed in the commission, is a personal one reposed in the officer and cannot be delegated to another without authority of law.

Payment of Interest.

The Secretary of the Treasury has directed the treasurer and assistant treasurers to pay the November coupons upon rebate of interest to Oct. 25th, and on and after that day to pay the interest due Nov. 1st without rebate.

Friend Lang, Indian Commissioner, and Col. Cox of the Interior department, passed through Chattanooga, Tenn., Friday night, with three car loads of Cherokee Indians, en route for the Indian Territory.

MINNESOTA.

THE NORTHERN FIRES.

A Town Burned and 30 Lives Lost.

MILWAUKEE, Oct. 7.—The news to-day from the northern fires is that they are raging worse than ever. A man just arrived at Fort Howard from Pevsaukie, says 30 men were burned to death at that place, and part of the town and one lumber mill were in ashes when he left. The rest of the town has probably been burned by this time.

ILLINOIS.

Great Conflagration in Chicago.

Immense Loss of Property.

THE FIRE STILL RAGING.

CHICAGO, Oct 8—2 A. M.—The most terrible conflagration that ever occurred in this city broke out about 11 o'clock to-night, and having already swept over six entire blocks, is still raging with almost unabated fury. The fire started in a large planing mill between Clinton, Canal, Van Buren and Jackson streets. The wind was blowing very fresh. The flames spread with incredible rapidity, and in a few minutes the entire structure was a mass of fire. The immediate vicinity is built up mainly with small wooden tenement houses and two story frame buildings occupied as groceries, saloons, &c. The inmates of many of these houses were startled from slumber, having hardly time to escape in their scanty night attire, leaving their household goods to destruction. In several instances children were hastily wrapped in blankets and quilts to break their fall and thrown from the second story windows to the ground. When the alarm was sounded for this fire another of considerable magnitude was burning on Wall street, near Adams. Several engines were necessarily kept at work upon this fire and the rest of the engines in the city were soon on the ground, but before they arrived the fire had spread over so large an area and was so rapidly spreading that efforts seemed of little avail. Between Canal street and the river were several lumber yards which were entirely destroyed. At this hour the fire has made a clean sweep from Van Buren street north two blocks to Adams and west to Clinton street. Three blocks from the river between Van Buren and Jackson streets are burning, and the wood work of the western approach to the Adams street bridge is destroyed. A large coal yard, containing thousands of tons of soft coal, and situated between the track of the Chicago & Alton and Pittsburg & Fort Wayne Railroads, is on fire and is burning furiously. The immense grain elevator of Vincent, Nelson & Co., one of the finest in the city, is immediately adjoining and though intended to be fire-proof, there seems little doubt but that it will be destroyed as the intense heat to which it is subjected will crack the slate with which it is covered, both on the roof and on all sides. It contains many thousand bushels of grain. The depot of the Pittsburg, Fort Wayne & Chicago and the Alton & St. Louis Railroads is situated north of Adams and between Canal street and the river. One the buildings, a light wooden structure, occupied as an express office, was in flames at midnight and is undoubtedly destroyed. The scenes in the vicinity of the conflagration are indescribable. One half of the population of the city seems gathered there. The tugs in the river are engaged in towing to a place of safely the vessels moored in the neighborhood, while locomotives are hasily pulling out a great number of cars standing on the track in flames. At this writing it is impossible to give an estimate of the losses, but they are already very large and the fire appears to be scarcely checked. No lives are known to be lost, yet it would seem miraculous if such should prove to be the case. The fire is apparently raging as fiercely as ever. A block of buildings on the North side of Van Buren street, which it was thought an hour ago would be saved, are now wrapped in flames.

The elevator is safe so far, and the fire seems to be spreading south and west notwithstanding the wind is now directly from south and blowing hard. The glare from the burning buildings illuminates the streets half a mile away so that one may see to read. The entire fire department is now on the ground and are making almost superhuman efforts to stay the flames. The losses, it is probable, already run into millions, and the end is not yet.

Later.

About 1 o'clock this morning the fire in the western division was under the complete control of the fire department. The space burnt over embraces four blocks bounded on the north by Adams street, west by Clinton street, south by Van Buren street and east by the Chicago river, but four or five buildings within the limit named remaining unburned among them Vincent, Nelson & Co.'s grain warehouse. The estimate of the entire loss places it at from $250,000 to $300,000, half which is probably insured. Margaret Hadley, living on the north side of Jackson street, was burned to a cinder. The entire insurance will probably fall below $150,000, two-thirds in Chicago offices.

Still Later.

The fire is now raging in the western division, which appears to be as large as that of last night. It is about two and a half miles from the Court House, and it will be late before the particulars are obtained.

Latest.

CHICAGO, Oct. 9—12 30 A. M.—The fire in the west division is now raging with unabated fury. It commenced near Taylor street, between Delaware and Jefferson, spreading in every direction, and covers at least four blocks at this hour, and it still seems beyond control. The blocks are built up solidly and almost exclusively of two story frame houses occupied as residences, boarding houses, saloons, groceries, &c. The loss is already large, and it is feared that it will prove more disastrous in character than the fire last night. No approximate estimate has yet been made of the loss.

NORTH CAROLINA.

Arrests.

WASHINGTON, Oct. 7.—The Raleigh (N. C.) Sentinel says that on Thursday a warrant was issued for the arrest of United States Marshal Carrow and his deputy, named Basher, for the illegal arrest and imprisonment of eight citizens of that State.

A telegram from Raleigh to-day states that Josiah Turner, editor of the Sentinel, was arrested charged with conspiracy to injure the United States Marshal on account of the lawful discharge of the duties of his office, and he was held to bail for appearance in Court in November.

MARYLAND.

Consecration.

BALTIMORE, Oct. 7.—Rev. Wm. White Howe was consecrated Assistant Bishop of South Carolina, at St. Paul's church to day. A sermon was preached by the Lord Bishop of Litchfield, England. A number of American Bishops took part in the consecration services.

METEOROLOGICAL.

Synopsis of Weather Reports for the past Twenty-Four Hours.

WAR DEP'T, OFFICE CHIEF SIGNAL OFFICER, Washington, D. C., Oct 8, (7.00 P. M.)

The area of the highest barometer which was on Saturday afternoon between Ohio and the Blue Ridge, now extends from South Carolina to New Jersey. Clear with smoky haze has prevailed very generally east of the Mississippi river, but northeasterly winds with cloudy weather are now reported from Florida. The low pressure that was on Saturday north of Nebraska has moved slowly southeastward and evidently extended to-day most rapidly towards Wisconsin, but there

CONVENTION,

BETWEEN THE

GENERAL POST OFFICE OF THE UNITED STATES OF AMERICA AND THE GENERAL POST OFFICE OF THE UNITED KINGDOM OF GREAT BRITAIN AND IRELAND.

The General Post Office of the United States of America and the General Post Office of the United Kingdom of Great Britain and Ireland, being desirous of establishing an exchange of money orders between the two countries, the undersigned, duly authorized for that purpose, have agreed upon the following articles:

ARTICLE I.

There shall be a regular exchange of money orders between the two countries. The maximum of each order is fixed at ten pounds sterling, when issued in the United Kingdom or Great Britain and Ireland, and, when issued in the United States, at fifty dollars in the national paper currency of the latter country.

ARTICLE II.

The British Post Office shall have power to fix the rates of commission on all money orders issued in the United Kingdom; and the United States Post Office shall have the same power in regard to all money orders issued in the United States. Each office shall communicate to the other its tariff of charges or rates of commission which shall be established under this convention, and these rates such, in all cases, be paid in advance by the remitter, and shall not, in any event, be repayable. It is understood, moreover, that each office is authorized to suspend, temporarily, the exchange of money orders in case the course of exchange, or any other circumstance, should give rise to abuse, or cause detriment to the postal revenue.

ARTICLE III.

Each country shall keep the commission charged on all money orders issued within it, but shall pay to the other country one per cent. on the total amount of such orders.

ARTICLE IV.

No money order shall include a fractional part of a penny or of a cent.

ARTICLE V.

The service of the postal money-order system between the two countries shall be performed exclusively by the agency of officers of exchange. On the part of the United States, the office of exchange shall be New York, and on the part of the United Kingdom, London.

ARTICLE VI.

Any person in the United States desiring to remit to the United Kingdom a sum of money within the limits prescribed by Article I, may pay it into any post office in the United States designated for such purpose from time to time, by the Postmaster General of that country. Such person shall, at the same time, give the name and address of the person to whom the amount is to be paid in the United Kingdom, and his own name and address. Any person in the United Kingdom desiring to remit to the United States a sum of money within the same limits, may pay it into any money-order office of the United Kingdom, giving, at the same time, the name and exact address of the person to whom the amount is to be paid in the United States, and his own name and address. The receiving postmaster in either country shall, in accordance with the rules established by his postal administration, notify every such payment to the despatching exchange office. The postmaster of New York, upon receipt of every notification of that kind, shall make out and forward to the payee in the United Kingdom a money order, payable in sterling at the post office in that country, designated by the remitter of the order, it being understood that the money orders so remitted shall be sent, in the first instance, to the controller of the money-order office in London, and shall not be subject to postage.

ARTICLE VII.

By every mail, the exchange office of each country shall send to the exchange office of the other country a certified list of sums payable in that country, and received since the despatch of the previous list. As soon as any such list shall have reached the New York office, and been verified, this office shall make out inland money orders in favor of the payees, for the amount specified in the list, and shall promptly forward them to the payees of the paying office, in conformity with the regulations existing in the United States for the payment of money orders. The list forwarded to the United Kingdom shall be accompanied by the exchange letters of advice of the orders entered therein, together with the orders themselves, as already settled in Article VI. After comparison with the lists, the novices shall be despatched to the officers drawn upon, and the letters enclosing the orders posted on delivery. The lists, by means of which each office of exchange communicates with the other, shall be according to the forms A and B annexed.

ARTICLE VIII.

The lists despatched from each office of exchange shall be numbered consecutively, commencing with No. 1, at the beginning of each year, and the entries, in these lists, shall have consecutive numbers, those in the lists from the United Kingdom commencing each calendar month with No. 1. Of each list despatched from New York, a duplicate shall be sent, and a triplicate shall, after being verified at the British office, be returned to New York.

ARTICLE IX.

Should any list fail to be received in due course the despatching office shall, on receiving information to that effect, transmit without delay, a duplicate of the list, duly certified as such.

ARTICLE X.

Each office of exchange shall promptly communicate to the other the correction of any simple error which it may discover in the verification of the lists. When the lists shall show irregularities which the receiving office shall not be able to rectify, that office shall apply for an explanation from the despatching office; and this explanation shall be afforded without delay.

ARTICLE XI.

Duplicate orders shall only be issued by the postal administration of the country on which the original orders were drawn, and in conformity with the regulations established or to be established in that country.

ARTICLE XII.

At the close of each quarter, three copies of an account shall be prepared and transmitted by the office at London, exhibiting the balance found due on the exchanges of orders during the quarter, which balance, after proper verification, shall, if due by the United States office, be paid at London; but if due by the British office, it shall be paid at New York, and always in the money of the country to which the payment is made. If, pending the settlement of an account, one of the two postal administrations shall ascertain that it owes the other a balance exceeding one thousand pounds sterling, the indebted administration shall promptly remit the approximate amount of such balance to the credit of the other. This account, and the letters which accompany such intermediate remittances, shall be in accordance with the forms C, D, and E, annexed to this convention.

ARTICLE XIII.

Until the two General Post Offices shall consent to an alteration, it is agreed that, in all matters of account relative to money orders which shall result from the execution of the present convention, the pound sterling of Great Britain shall be considered as equivalent to four dollars and eighty-six cents of the gold coin of the United States.

ARTICLE XIV.

Each exchange office shall certify its orders to the other, in amounts designated in the denominations of the money both of the despatching and receiving country, at the rate of conversion established upon the basis of gold, by Article XII of this convention. This convers on shall be checked at the receiving office of exchange.

ARTICLE XV.

All payments for money orders, whether to or by the public, if not in gold, shall be made to the nearest practicable equivalent.

ARTICLE XVI.

The value, in gold coin of the United States, of deposits in paper money made in that country for payment in Great Britain, shall be determined at the exchange office of New York, according to the rate of premium on gold, on the day of receipt at that office of notification of such deposits. On the other hand, the value, in United States paper currency, of money orders certified in the lists sent from the exchange office of London to the exchange office of New York, shall be determined (also at New York) in accordance with the premium on gold on the day of the receipts of such lists.

ARTICLE XVII.

Orders which shall not have been paid within twelve calendar months from the month of issue shall become void, and the sums received shall accrue to and remain at the disposal of the country of origin. The British office shall therefore enter to the credit of the United States, in the quarterly account, all money orders entered in the lists received from the United States which remain unpaid at the end of the period specified. On the other hand, the United States office shall, at the close of each month, transmit to the British office, for entry in the quarterly account, a detailed statement of all orders included in the lists despatched from the latter office which, under this article, become void.

ARTICLE XVIII.

Repayment of orders to remitters shall not be made until an authorization for such repayment shall first have been obtained by the country of issue from the country where such orders were payable; and the amounts of the repaid orders shall be duly credited to the former country in the quarterly account. It is the province of each postal administration to determine the manner in which repayment to the remitter is to be made.

ARTICLE XIX.

The orders issued by each country on the other shall be subject, as regards payment, to the regulations which govern the payment of inland orders of the country on which they are drawn.

ARTICLE XX.

The General Post Office in each country shall be authorized to adopt any additional rules (if not repugnant to the foregoing) for the greater security against fraud, or for the better working of the system generally. All such additional rules, however, must be promptly communicated to the Post Office of the other country.

ARTICLE XXI.

The present convention shall take effect on the first day of October next, and shall continue in force until twelve months after the date at which one of the contracting parties shall have notified to the other its intention to terminate it.

Done in duplicate, and signed in London on the thirteenth day of June in the year of our Lord one thousand eight hundred and seventy-one, and in Washington on the twenty-seventh day of July, in the year of our Lord one thousand eight hundred and seventy-one.

W. MOUSELL,
[Seal of Her Majesty's Postmaster General.]

JNO. A. J. CRESSWELL,
Postmaster General of the United States,
[Seal of the Post Office Department of the United States.]

I hereby approve the aforegoing convention, and in testimony thereof I have caused the seal of the United States to be affixed.

U. S. GRANT.

[Seal of the United States of America.]

By the President:
HAMILTON FISH, *Secretary of State.*
WASHINGTON, July 27th, 1871.

NOTICE

Redemption of 5-20 Bonds of 1862

TREASURY DEPARTMENT,
Septemoer 1, 1871.

BY virtue of the authority given by an Act of Congress approved July 14, 1870, entitled "An Act to authorize the refunding of the national debt," I hereby give notice that the principal and accrued interest of the bonds here-in-below designated, known as Five-Twenty bonds, will be paid at the Treasury of the United States, in the City of Washington, on or after the first day of December next, and that the interest of said bonds will cease on that day. This is to say, Coupon Bonds known as the first series, Act of February 25, 1862, dated May 1, 1862, numbered as follows:

1 to 35699, inclusive, of	$50	each.	
1 to 43572,	"	100	"
1 to 4001,	"	500	"
1 to 7404,	"	1000	"

And Registered Bonds of the same Act—

1 to 595, inclusive, of	$50	"	
1 to 4103,	"	100	"
1 to 1889,	"	500	"
1 to 8995,	"	1000	"
1 to 2665,	"	5000	"
1 to 2906,	"	10000	"

The amount outstanding (embraced in the numbers as above) is one hundred million ($100,000,000) dollars.

Coupon Bonds of the Act of February 24, 1862, were issued in four distinct series. Bonds of the first series (embracing those described above) do not bear second, third and fourth series are distinctly marked on the face of the bonds.

United State securities forwarded for redemption should be addressed to the "LOAN DIVISION," Secretary's Office.

J. F. HARTLEY,
Acting Secretary.

Notice.

A DIVIDEND of 4 per cent. is payable to the creditors of WM. H. MELCHER & CO., and creditors are requested to prove their claims and receive their dividends at the office of CUMMINGS, LEAVITT & WIDBER, 220 Commercial st., between the hours four and six p. m. oct4d2w

MEDICAL.

THE

University Medicines!

Great est Success of the Age.

26,893 Cures

In Eight Months

Of Catarrh, Heart Diseases' Consumption, Kidney Affections, Bronchitis, Blood Maladies, Rheumatism, Womb Complaints, Neuralgia, Liver Diseases, Scrofula, Eye Affections, Deafness, Nervousness, St, Vitus' Dance, Asthma, Organic Weakness, Epilepsy, Impaired Memory, Tumors, Ulcers Eruption, Piles, Exhausting Drain on the System.

The New York University Branch

250 Congress Street,

Under Congress Hall

PELEG STAPLES.

Agent for the State of Maine and New Brunswick.

☞ Agents wanted in every town in the State.

It has been about one year since the University Medicine was introduced into this State. Notwithstanding the strong opposition from the profession and their particular friends, the sales have increased from nothing until they have reached $500 per day. Hundreds of certificates can be produced if necessary, of cases cured in Portland and vicinity. Many who were considered incurable are now enjoying perfect health.

CATARRH (the mother of consumption,) Scrotula, Salt Rheum, and many other diseases hitherto considered incurable, readily yield under treatment of the University Medicines.

FEMALE DISEASES treated with perfect success. Having treated over two hundred cases within the last three months, I consider it safe to warrant a perfect cure to 95 cases out of every one hundred, without causter zation or the least exposure.

SPERMATORRHOEA, the greatest destroyer of humanity on the face of the Globe. How many be wail the loss of precious vitality without having the slightest idea of the cause, their manhood is daily vanishing and they are gliding into a state of hopeless decay. I have treated over five hundred cases of this malady within six months with the University Medicines with the greatest success.

Persons afflicted with diseases will please call or send and get a book (free), wherein they will find their diseases explained, and necessary remedies.

Address PELEG STAPLES,
[250 Congress St., Portland, Me.

Certificates of Cures.

I have been troubled with Scrotula all my lifetime and Neuralgia, in the head for seven years and have consulted good physicians from Maine to New York without any benefit whatever. I have taken six bottles of the cancer plant and one and one half of the Neuralgia Elixir, and a little of some other kinds and I now feel better than I ever was before in my life. I cannot say with Mr. Munsey, that I feel twenty years younger, being only twenty eight, but can say I never felt so young to my knowledge in my life.

I think the worth of the Medicine cannot be estimated in words or money.

MRS. A. O. W. FOSTER, Wilton, Me.

Cases Treated by Letter.

DR. STAPLES:—One bottle of your extract of Cancer Plant cured my little boy of Scrotula of 15 months standing. I should write and say I could not give a full idea of his sufferings. We employed five physicians without relief. His sores are all healed and he appears perfectly well. We think it is a wonderful cure. Several of our friends are taking the medicine with good success.

MRS. WM. J. LEWIS.
Old Town, Sept. 17, 1870.

SOUTH PARIS, Feb. 2, 1871.
DR. STAPLES—Dear Sir:—The medicine I got at your place, Jan. 20, has done wonders for me. It is all you recommend it to be.

You may make any use of the above you think proper. Yours truly,

SETH MORSE.

The above case has been treated for the past four years by different physicians for cancer.

This may certify that I had been suffering with the "Rhumatism" for five months, and at that time it seized my right hip and leg, down to the foot. This the physicians called "Sciatic." I tried many kinds of highly recommended medicines which I took for the blood. Still I got no relief for seven months more, all the time doing my best, with as good advisers as we have in our city. Finally I called at the New York University Branch, and the proprietor said he could help me. So I commenced on his medicine, and in four weeks I thought I felt relief, and in eight weeks I was able to leave my room and go home. And have been well up to this time, three months have passed.

DAVID KEAZER.
Portland, Aug. 2d, 1870.

I have been afflicted for twenty years with Chronic Rheumatism. I have spent hundreds of dollars for medical treatment without benefit. Ten days ago, I commenced taking the University Medicines, and I can truly say it has been more benefit to me than all other treatment I ever received. My place of business is 137 Pearl street. I shall be pleased to answer all enquiries. JOHN TURNER.

As certain individuals have reported tha the above certificate is false and my disease as bad as ever, I wish to say, at the time I gave the above certificate, the story was not half told. In addition to the above, my leg and back were covered with sores. I am now well and feel at least twenty years younger than I did before taking the remedies.

My advice to the afflicted is to give the medicine a trial and not to be deterred by the cry of humbug. It cured me, it has cured many others. I believe the extract of cancer plant will cure any blood disease in existence.

June 7, 1870.

For fifty years I have been troubled with Scrotula. Some fifteen years ago a scarrii ulcer broke out on my leg. Three months ago it had extended from the ankle joint nearly to the knee. I could not move without great pain. In this condition I commenced taking the University Medicine.

At first it drove out a fearful humor all over me. In a few days the humor began to subside, and the ulcer is now healed and I feel like a new being.

ELIZABETH CHAMBERLAIN, 38 Chestnut-st.
Portland, Aug. 30.

For twenty-five years I have suffered with Scrotula and Salt Rheum, (or Tetter.) Have paid out hundreds of dollars, and been treated by several first-class physicians without benefit. Some four weeks ago, I commenced using the University Medicines.—At the time my forehead and head were covered with sores and scaliness of the skin; also my tongue was covered with small ulcers. I am to-day free from all the above troubles, and can heartily recommend these medicines to the afflicted.

S. G. MUNSEY, 27 Chestnut Street.
Portland, Jan. 24, 1870.

I ad the Catarrh so bad for seven years that my head became continued and painful. I was obliged to get up several times in the night to keep from choking. I employed some of the best physicians in the country without benefit. I was perfectly cured with the University Medicines in three weeks.

A. M. MORGAN, 224 Cumberland St. Portland.
Conductor on the Portland & Odgensburg Railroad.
February 18, 1870.

Since giving the above certificate, I have been perfectly free from Catarrh, through I have been continually exposed to wet and colds.

June 10, 1870. A. M. MORGAN.

A REMARKABLE CURE!—I have been troubled with a bad Scrotula Humor all my life. A fearful sore broke out on my neck. For six months I was under treatment of the best medical advicers I could find in Portland, but all the time grew worse; my appetite failed and I became so weak and emaciated that I could walk but a short distance without help. In this condition I commenced taking the University Medicine. In one week my appetite was good and the deathly sinking pain in my stomach vanished. In two months my sore was healed. I have since gained fifty pounds in weight and am now every way well.

HENRY D. TODD, Tolman Court.
Portland, Jan. 20th, 1871.

About a year ago, I was so badly affected with Kidney Disease and general debility, that I could scarcely attend to my business. I took a few bottles of University Medicine, and have been well up to the present time. CHAS. E. DUTTON.
Store 312 Congress St, Portland.

I was afflicted with sciatica for three months most of the time so badly that I could not pull off or put on my boots and stockings, and in order to pick up a pin I had to lay from the floor had to get down on my knees, and then could not lift five pounds in that position. By using the University Medicines I was cured, O. O. NEWHALL,
Firm Gosse, Newhall & Co., Printers,
Portland, Dec. 15, 1870.

For three years I was badly afflicted with Asthma, Catarrh, and a fearful consumptive cough.

I was perfectly cured with the University Medicines in six weeks. For the past two months I have been continually exposed to wet and cold, without the least return of symptoms of the above diseases.

CAPT. A. CLEAVES.
Cape Elizabeth, June 3, 1870.

GORHAM, Maine, Aug. 18, 1870.
Dr. Staples- Dear Sir;-Without solicitation on the part of any person, I, of my own free will and accord give testimony to the virtue of your medicines.

I have suffered extremely with the *Bleeding Piles* and Catarrh for ten years. My memory, sight and hearing were failing from the effect of them. I felt last spring that I must resign my calling.

I have taken two bottles of the "Pile Extract," two of the "Extract of Cancer Plant," and one bottle of "Catarrh Specific." It has done wonders for me. I am a new man. I feel as though I have found a sure cure at last.

Yours Truly, JOHN COLLINS,
Pastor of the M. E. Church, Gorham, Me.

I guarantee the above certificates to be genuine, I will forfeit $1000 to any one that wi find them otherwise.

Persons having doubts will please address the parties sp29d12taw&weowlm

School Vacation

OFFERS AN OPPORTUNITY to the young to receive such treatment and instructions as their teeth require. The children should visit the dentist as often as once in three months to insure a regular and healthy development of the teeth.

I would urge more attention to the children's teeth than is generally given, especially to the deciduous, or first teeth; give them as much attention at least as is given to their dress. Do this, and my word to it, there will be, in after years, but little occasion for artificial teeth,

It should not be forgotten that **Nitrous Oxide** is administered daily for extracting teeth, with the greatest satisfaction by

MEDICAL.

DR. J. B. HUGHES,
CAN BE FOUND AT HIS

PRIVATE MEDICAL ROOMS

No. 172 Cumberland Street,

WHERE he can be consulted privately, and will by the utmost confidence by the afflicted, at hours daily, and from 8 A. M. to 9 P. M.

Dr. H. addresses those who are suffering under the affliction of private diseases, whether arising from impure connection or the terrible vice of self-abuse. Devoting his entire time to that particular branch of the medical profession, he feels warranted in GUARANTEEING A CURE IN ALL CASES, whether of long standing or recently contracted, entirely removing the dregs of disease from the system, and making a perfect and PERMANENT CURE.

He would call the attention of the afflicted to the fact of his long-standing and well-earned reputation furnishing sufficient assurance of his skill and success.

Caution to the Public.

Every intelligent and thinking person must know that remedies handed out for general use should have their efficacy established by well tested experience in the hands of a regularly educated physician, whose preparatory studies fit him for all the duties he must fulfil; yet the country is flooded with poor nostrums and cure-alls, purport ng to be the best in the world, which are not only useless, but always injurious. The unfortunate sufferer should be PARTICULAR in selecting his physician, as it is a lamentable yet incontrovertible fact, that many syphilitic patients are made miserable with ruined constitutions by maltreatment from inexperienced physicians in general practice; for this point generally conceded by the best syphilographers, that the study and management of these complaints should engross the whole time of those who would be competent and successful in their treatment and cure. The inexperienced general practitioner, having neither opportunity nor time to make himself acquainted with their pathology, commonly pursues one system of treatment, in most cases ranking an indiscriminate use of that antiquated and dangerous weapon, the Mercury.

Have Confidence.

All who have committed an excess of any kind whether it be the solitary vice of youth, or the flagging rebuke of misplaced confidence in maturer years,

SEEK FOR AS ANTIDOTE IN THE SEASON.

The Pains and Aches, and Lassitude and Nervous Prostration that may follow Impure Connection are the Barometer to the whole system.

Do not wait for the consumption that is sure to follow; do not wait for the Unsightly Ulcers, for Disabled Limbs, for Loss of Beauty and Complexion.

How Many Thousands Sleep Tenantless to This by Unhappy Experience!

Young men troubled with emissions in sleep,—a complaint generally the result of a bad habit in youth,—treated, scientifically and a perfect cure warranted or no charge made.

Hardly a day passes but we are consulted by one or more young men with the above disease, some of them are as weak and emaciated as though they had the consumption, and by their friends are supposed to have it. All such cases yield to the proper and only correct course of treatment, and in a short time are made to rejoice in perfect health.

Middle-Aged Men.

There are many men of the age of thirty who are troubled with too frequent evacuations from the bladder, often accompanied by a slight smarting or burning sensation, and weakening the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of semen or spermatic matter will appear, of the color and consistency of a thin milk-thin hue, again changing to a dark and turbid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the

SECOND STAGE OF SEMINAL WEAKNESS.

I can warrant a perfect cure in such cases, and a full and healthy restoration of the urinary organs.

Persons who cannot personally consult the Dr., can do so by writing, in a plain manner, a description of their diseases, and the appropriate remedies will be forwarded immediately.

All correspondence strictly confidential and will be returned, if desired.

Address:
DR. J. B. HUGHES,
172 Cumberland St., Portland.

☞ Send a Stamp for Circular.

Electic Medical Infirmary,

TO THE LADIES.

Sent to any part of the country, with full directions, by addressing DR. HUGHES,
and 1865d&w No. 172 Cumberland Street, Portland

CORNS, CORNS!

Life has its temptations, sorrows and trials, and the greatest of all, although not dangerous, yet it will be readily admitted, that Corns, Bunions, Ingrowing Nails and other ailments of the large are a source of great annoyance. In vain you scrape, cut and dig at them, at every changing atmosphere they will still send their piercing darts darts forth like flashes of lightning in sharp, piercing, and unrelenting pains. They torment a person to a greater degree than other affections. Dr. J. Briggs, the well-known Chiropodist has produced safe and reliable remedies, Alleviator and Curative. Sold by Druggists.

PILES, PILES,

A very common affection, there being but few persons who are not troubled with them at some period of their life. The disease exists in small tumors in the rectum or about the anus, which are divided into, first, those which are owing to a distended state of the veins of the part, and second, those which present the character of a solid tumor. When the tumors are within the rectum, they are called internal piles: when without, and around the anus, external. When they discharge blood they are termed bleeding piles; and if when no blood appears, blind piles; and excessive itching about the anus, itching piles. *Nothing equals BRIGGS' PILE REMEDIES for their cure.* Sold by Druggists.

HEADACHE, &C.,

HEADACHE.—There is in every class of society vast numbers who suffer with Headache Neuralgia from various causes. Over excitement of the nervous system, dissipation in eating or drinking, a general unhealthy condition of the stomach or liver, constipation, &c. In fact there are nearly as many causes as sufferers. Dr. J. Briggs' Allevantor is a pleasant and positive remedy for the various kinds of Headache Neuralgia.

This wonderful remedy has gladdened many a sad and weary heart, and is still on its mission of mercy. Sold by M. S. WHITTIER, Junction of Free and Congress sts, EMMONS CHAPMAN, cor. Middle and Exchange sts, J. R. LUNT & Co, 348 Congress st., GEO. C. FRYE, cor. Franklin and Congress sts. MARK & DAVIS, cor. Congress and North sts, and Druggists generally. Trade supplied by W. H. PHILLIPS & CO., J. W PERKINS & CO, W. W. WHIPPLE & CO. no17-dly
